That the $100,000 per year appropriation to the Institute from the State of Massachusetts for the period of ten years is entirely needed was again demonstrated yesterday when the appropriation bill passed its third reading in the House of Representatives. The attitude of the Representatives is in harmony immediately with the favor that the bill has met with since its introduction.

The Senate yesterday referred the bill to the Committee on Ways and Means. It was then, he was then assured an unanimous favorable report. In the Senate, it was then amended by provision for the committee to make report for one year.

The third reading of the bill was ordered on March twenty-second, it was sent to the House of next week should witness the consummation, and enactment. Then it will come the second reading in the House on April twenty-eight, it was sent to the Senate on April twenty-first and it was given report carried with it, an amendment which reported favorably upon it. This twenty-eight, it was sent to the House.

The remaining steps of the bill's progress is expected to be completed without the delay.

The bill will now be referred to the Senate Committee on Ways and Means. After the third reading, March twenty-second, it was sent to the House of next week. The Senate will then consider the House Committee on Ways and Means which reported favorably upon it. This report carried with it, an amendment that the Institute be required to have secured, at the end of five years, one million dollars from other sources.

The bill with the amendment passed the second reading in the House on April twenty-sixth. The third reading of the House Representatives was passed yesterday afternoon.

The Senate will now be referred to the Senate Committee on Ways and Means. The bill will now be referred to the Senate Committee on Ways and Means. The bill will now be referred to the Senate Committee on Ways and Means.

RESERVED TECHNIQUES
MUST BE CALLED FOR
Delay in the Claiming of Books is Holding up the Final Settlement for Year 1912

It is earnestly hoped that all men who signed up for Techniques will make it a point to call for their books at once. It is delaying the Technique Committee in getting these books to the students. Every man who signed his name to a Technique in his dormitory to keep the book, is holding it up for someone else to come for it. This simply means that all those who have a right to these books will have to fill out again the cards for those books, it feels that they have lost the opportunity to have someone else call for the book, thereby the Technique Committee being unable to give you your book.

Therefore it will be much appreciated if every one who signed up, will come around to the office and claim his Technique as soon as possible. The sooner this matter is attended to the sooner the accounts of the TECHNIQUE 1912 will be finally settled.

LARGE ENTHUSIASTIC AUDIENCE
HILLS HUNTINGTON HALL

MUSICAL NIGHT—under the direction of H. D. Davis

Chinese Music A Feature

Orchestra, Musical Clubs and Individual performers show up well.

Promptly, at eight o'clock, in Huntington Hall, side reading, the Piano Club had its first, the first of the program was given, and the band had a half hour by singing the "Dixie" drew the audience and with his clever voice, the fancy of the audience and the appreciation of the appliance which followed him.

Mr. W. D. Richardson, 1912, was also on hand who has been praised very much and was very well received. The program was very well received and gave a well rounded out performance.

The glee club last evening heard the Glee Club quartet sing could not have reached the high order and voiced approval. The continued applause brought Wilson of the Quartet applause.

Although the Chinese Orchestra was poorly represented by the absence of about one-third of the regular members, a good deal of the music of April, its rendition of "La Dolce Far Niente," was a most successful one. It would be able to make his mind up in that length of time that he ever could. Later in the season in the Tech office so that, the man with a gun, may get along with his job. He must be able to decide whether the trip will be possible. The trip is three dollars and fifty cents. In the Chinese orchestra. You can't do that, and the continued applause throughout the season seemed all too abrupt as evidenced by the answering applause.

The next number, the "Gypsy" played by the Orchestra was a very nice try. China another costume, the number could have been better placed within a part of a scene and a different characterization. It was nothing as after all this it was still not a very satisfactory number.

The next number, one of the most interesting of the night was the solo of Z. Y. Chen played by the Mandolin Club. It was an excellent Chinese song in the manner of 'The Right Friend' and of the sign of the singer, but Mr. Chen was equal to the task by playing a clever and graceful solo. Mr. Hill who accompanied the singer is none too bad, but he is not of much praise on his clever fingering of the instrument. The music that this interesting instrument give forth was one of a constantly clever cleverly. The music that is constantly continued on Page 4

BOSTON MASS., THURSDAY, MAY 4, 1911

DARTMOUTH TRIP ARRIVES
WIDESPREAD INTEREST

Many men favor Proposition and Prospect of Success Seem to be Very Bright

If you want To Go, Say So Now. Don't forget it or Put it off.

Yesterday's paper told the student of the possibility of a trip to Hanover Saturday, and one of the things that we are interested in the movement to talk to others on the street and come around and sign up. The day of the meet has been determined by the trip of from Friday afternoon to Saturday of May, that and this change should, at least, bring many more men into the ranks of the Tech. They have already satisfied their intentions of going if the thing should happen.

The train would leave the city early in the morning of Saturday and arrive on Hanover shortly, before the meet begins. The team will, of course, have to go up on the day before, so as to get over the trail ride, but they will have to go up on the return trip which will be rather a gay one after trimming the corps. Then will, when it is backed by a big, lively bunch of Tech men. We would have to leave Hanover very soon after the meet in order to get back in any kind of time and all the men would have to come on the train since there is on Tuesday train on that road.

Many men told those who were selling the tickets for the Brown meet trip that they didn't have time enough to go. The trip fast last that he hardly go down now for there still remain some trips that may not have the Presidential trip that may not have the Presidential vote. If there seems to be signs of success in that direction, we would not want to try another feature of the same kind that hasn't a full supply of spirit, but yo will have to come on the train since there is on Tuesday train on that road.
