PROF. EDMOND F. MILLER

We welcome Prof. Miller to the ranks of the Department of Chemical Engineering and wish him the best of success. He has been one of the best possible examples in Prof. Ernestus Lanza.

MEMBERS OF FACULTY, Etc. (Continued from page 1)

Promotions—E. L. Connolly, Asst. to Inst.; R. E. Gegenheimer, Asst. to Inst.; W. T. Hall, Inst. to Asst.; Prof. L. Rosenfeld, Asst. to Inst.; R. S. Williams, Inst. to Asst. Prof.; G. N. Lewis, Assoc. Prof; Professor of Chemical Research.

Physics.

MECHANICAL ARTS.

Promoted—H. A. Everett, Inst. to Asst. Prof.

Mechanical Arts.

Military Science.

Drawing.

Lost—C. H. Sutherland, Asst.; H. M. Mason, Asst.; W. F. Brown, Inst. to Asst. Prof.

Promoted—W. E. P. Brown, Inst. to Asst. Prof.

New—G. W. Duncan, Asst.

Languages.

Amer. Prof. H. G. Pearson returns from leave of absence.

President's Assistant Maurice R. Scharf has also joined the list of assistants.

PROF. LANZA RETIRES.

(Continued from page 1)

The Department of Mechanical Engineering also loses Professor Peter Schwamb, who retires from the professorship of machine design. He has been associated with the Institute since 1879, and in the year 1888, became one of our instructors. He rose to the rank of professor of mechanics in 1897, and in 1901 was made the professor of machine design. He has long been the director of the mechanical laboratories of the Institute, and his name also one which will be felt greatly by all connected with the Institute.

PROF. LANZA RETIRES.

(Continued from page 1)

The upper classmen and older men are only too willing to help you over any difficulties you may meet, if you will but ask assistance. And here's word failure from your vocabulary.

We welcome Prof. Miller to the ranks of the Department of Chemical Engineering and wish him the best of success. He has been one of the best possible examples in Prof. Ernestus Lanza.
