All communications should be addressed to the proper departments.

Subscriptions $5.00 per year in advance. Single copies 2 cents.

The Institute Committee has charged the annual elections of officers as early as possible in the year, in order to facilitate the organization of the body and aid in starting and carrying out work. The committee recommends that nominations be received during the first week of October and that the regular voting take place during the second week. It is hoped that by the end of the latter the new officers would be able to assume their positions. This meeting is a great opportunity for all those interested in the Institute to meet the old men and get an idea of the work that they are trying to do. It will be held on Friday, October 18th, instead of on October first, as was accidentally stated previously. The members of the Institute will be present and support those who are giving their time and energy to make this year's Institute a great success.

COMPLETE LIST OF POINT RATINGs (Continued from page 1)

There are a few exceptions to the point limit. One of these allows a man to contribute 1 point for each time he accepts the position of captain of an athletic team. Another modification is that the Executive Committee of the Institute Committee can be composed of members who are absent, as it will be possible to carry out the duties of these most important committees.

When nominations are being considered by the nominating committees, it is customary to inquire of the candidate whether or not he would resign any other office he might hold if elected, providing he would be over ten points on the list. In both cases recommendations which might arise if a man were elected to an office and preferred to hold

THE TECH goes to NEW YORK CHRISTMAS

Chances Offered to Freshmen— Stringed Instruments Wanted.

A great opportunity is offered to all students to join the Tech Orchestra at the next rehearsal. Mr. Brooks, the leader, has just received yesterday a letter from New York definitively assuring a concert in that city during the Christmas holidays. This concert is to include concerts in Providence, Hartford, Conn., and Philadelphia, Pa. This trip offers a great opportunity to the members of the Institute, as only twenty-five men will be taken on the trip, all those who are desirous of going must make their names known at all rehearsals and work faithfully toward this definite goal. The plan has not yet been fully drawn up, but will be announced in later issues of THE TECH.

There is a great need at present for more violins, cellos, and stringed instruments, and every man who can play any of the old Instruments is requested to be present at the next rehearsal.

The first concert will be held at the Sanborn Art, M. C. A., where last year's orchestra so successfully performed on Washington's Birthday. The second concert will be held in New York, November, instead of on October first, as was accidentally stated previously. The Cosmopolitan Club has consented to have the orchestra play for them some of the latest music. There is no definite plan yet been made.

The next rehearsal of the orchestra will be on Friday, October 18th. All last year's men must be back at this time. It is very important that all who are members now, or who intend to join, should be present at this meeting. All Freshmen are especially urged to be present. Important plans will be discussed and voted on for the coming year.
