HARE AND HOUNDS AT WAKEFIELD SATURDAY

A Great Opportunity Offered to Men Desiring Outdoor Exercise.

The second Hare and Hound run of the Fall season will be held at Wakefield Saturday afternoon. This is the last event of the season, and the time the trail is exceptionally clear. It is expected that a large crowd will attend the event. The runners should avail themselves of this opportunity to get into trim for the Winter season.

A general idea of the purpose and character of the event is given by Mr. Samuel Butcher, who is the organizer. It is his belief that the event will give benefit to those who are interested in outdoor sports, but have never been able to exercise themselves for any length of time. The event is open to all who seek outdoor exercise.

Saturday during the Fall a small team of men go out in the suburbs. A few men are chosen who are accustomed with the country to run as Harrier and lay a few miles of track for the Hounds to follow. The track leads through woods of stumps, snare, corn fields, fences, and is as varied as this one will give the runners a real test of speed. The gun is fired, and the runners go off, chasing the Hare, trying to get to the Hare before the Hounds. The event is a great test of speed, and will give the runners an opportunity to test their abilities.

All along the route the members of the party pass through various towns and cities. In the early days the party passed through the towns and cities of Milan, Venice, Florence, Trieste, and Berlin. At Munich, specimens of the famous "mermaid" were secured. The party was then defrayed and traveled through Belgium and France. There they visited the "Consortium" and examined the garden of Berghoffen which have been worked since 1880. The next stops were at Lachen and Vienna. In Romen they visited the "Consortium" and Hanstaat and Prague. There they visited the "Consortium" and passed through Dronden, Berlin, Prague, and many other cities. On the way they made a tour of the "Consortium" and the Alpine Mountains, thence to France, and then to the "Consortium" of the French Alps. After Paris the next stop was at the "Consortium" and the Alps, thence back to England.

Before taking ship back to America the party stopped at the "Consortium" and the "Consortium" of the French Alps. After Paris the next stop was at the "Consortium" and the Alps, thence back to England.

The prospects for a strong Sophomore team next year is very good. The team is looking forward to a better time and would derive more individual benefit from the run. If the number were not large enough to make the opportunity cost out and run. If the number were not large enough to make the opportunity cost out and run.

1924 FOOTBALL

The Sophomores are ready to play in Worcester on Saturday afternoon against the Worcester High School. A large game is expected, and every man on the Sophomore squad should make it a point to attend the game. It is expected that the game will get a chance to show what they can do, and this will give the team that will go against the Freshmen and Old men an opportunity to show what they can do.
