THE TECH, BOSTON, MASS., OCTOBER 9, 1911

E. W. TAFT NEW MAJOR FRESHMAN BATTALION

New Regulations Require Three Lieutenants in Each Company.

The Commander of the Battalion has given out the list of commissioned officers for the year, the men being for the most part of the upper classes. The commissions are based on excellence of the work of the first year. The Major is usually picked from one of the captains of the year proceeding; that explains how railph and the other officers as a rule are Sophomores.

Major Taft, the Commander, announces that the Major will be Mr. Edgar Whitaker Taft, 1913. Mr. Taft is the Captain of the company which won the first prize in the annual drill last May. He prepared for Technological in the Grammar School, and while there obtained high rank in the physical education, and finally becoming a Major. Since he has been in the Institute he has been prominent in the Cadet Battalion and has been a representative of his class at the Institute Council. While on that body he was in charge of the calendar, and when he got to see, Mr. Taft was unable to perform during the coming year.

The Adjutant of the Battalion is Mr. Samuel Breck, Jr., of Boston. He also has been a member of the Junior class and was the Lieutenant in Major Taft's company last year. Mr. Breck was a member of the 1912 top-of-the-year team, and was also in the chorus of the 1910 School Show.

The Captains of the four companies have been appointed as follows: Company A, A. J. Pastene, 1913; Company B, Francis H. Achard, 1912; Company C, Lester S. Hamilton, 1914; Company D, Frederick B. Barnes, 1914. Pastene was a member of the Union Committee last year and has been connected with THE TECH for a year or more. Mr. Achard was also a top-of-the-year man and was in the Senior chorus of both 1910-11. Pastene and Mr. Achard are Sophomores.

Other rules and regulations of this year: the companies are divided into three platoons, thus requiring eight second Lieutenants for the Battalion. The men as are as follows: Harold T. Bent, Hibbard S. Busby, Chester R. Burnham. The promotion to the non-commissioned staff will not be announced until some time, probably in December.

SEDGwick TO START COURSE IN HYGIENE

Professor Sedgwick gives the first of the lectures on Personal Hygiene on Wednesday afternoon, at 4 o'clock, to the members of the incoming class. This is the first of a series of valuable and instructive talks that the freshmen are to get at this hour on Wednesdays in Room 3, Lowell.

Professor Sedgwick is a very interesting man to listen to, and he speaks right from the shoulder, and not from an inside knowledge of his subject. He has been in the first year here, and can afford to cut one of these talks, for they are of real value.

The second of the series of talks will be given by Dr. Franklin W. White, the medical adviser of the Institute, who is a man high in the ranks of his profession, and one with whom most of the men will at some future time in their course have reason to come in contact. He will give bits of advice from the standpoint of the man who is in a way responsible for the general health of the Institute and the undergraduates, and his lectures are more than get to be illustrated by little stories of personal experience and observation.

T STANDS FOR TECH

The word stands for Trial, and in no case is all we ask of our TASTEFUL and TRUSTWORTHY Laundry work; if you will TAKE THE TIME and TROUBLE TO TRY us once you will understand THE TRIFLING TASK is TOO TEDIOUS for us to undertake. Our TERMS are TRULY TRIFLING. ALL SHIRTS 10c EACH. IRONED BY HAND TOO.
