THE TECH

Published daily, except Sunday, during the college year by students at the Massachusetts Institute of Technology.

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Cambridge, Mass., under the act of Congress of March 3, 1879.

The committee are to be congratulated on the work that they have done. The planning and organizing that they have done for the Institute will be a lasting benefit to the students of the Institute. The committee have been absolutely unanimous in their opinions from the first. After careful investigations of various proposed sites it was decided that the Charles River Esplanade would be the best, provided it could be obtained at a proper price and provided also that all the streets intersecting it, excepting Vassar street, could be discontinued. There were about forty owners to deal with, the principal of the Amos estate at the Marcy. It was naturally a difficult matter to come to an agreement with them. The committee has been absolutely unanimous in its opinions from the first.
