SITUATION OF THE NEW SITE.

The selection of the Cambridge site by the committee to which the choice was referred was entirely intelligible. The new site is accessible to all, sufficiently large, and just near enough to a resolution by the Boston to be a very nearly ideal. It is located just across the Harvard bridge in Cambridge, facing the Charles River. It is a tract of land containing 1,967,000 square feet, extending from Massachusetts avenue along the Charles River, and finally for about 1,800 feet, reaching back as far as the Boston and Albany Railroad, Main and Ame streets. It extends along Massachusetts avenue in a slight curve for 1,900 feet opposite the Riverbank Hotel and the vacant land adjoining it.

The property adjoins the Shoe and Leather Exhibition Building. The station of the New Cambridge Subway is close to the Main street border, and thus the accessibility is greatly increased. The land is all level and capable of being developed with exposure to light everywhere.

The interesting coincidence in connection with the new site is the fact that the property includes Vassar, a good idea of the situation and that the property includes Vassar, with exposure to light everywhere. A great period is expected that the land is all level and capable of being developed with exposure to light everywhere.

The first meeting of the Architectural Society occurred Wednesday, October 11, 1911, in the Union. To this meeting were invited all foreign students and such American students as are interested in the purpose and design of the club. The meeting was informal, and refreshments will be served.

The order of finishing of the members of the club was: 1, C. B. Shedd, 1914; 2, A. F. Nye, 1914; 3, H. S. Dunn, 1914; 4, E. S. Perc, 1914; 5, C. S. Lee, 1914; 6, C. A. Cary, 1914; 7, E. T. Mather, 1914; 8, A. S. Mather, 1914; 9, W. J. Kells, 1914; 10, Willinks, 1914, and 11, Wilkins, 1914, and 12, Wilkins, 1914.
