NEWS FROM THE MINERS.

Course Three Men Now Full of Professional Work.

The work of the department of Mining Engineering is now under full way, and the men are busy learning the arts used in the mining world. Every day the pupils are seen coming out of Rogers with the sweat and grime of the furnace on their brows and the mark of the ore on their hands.

The first metal was jigged and casted last week, and this week there has been another bunch put through. Besides this they have run off the first copper refining test of the year. This was highly satisfactory, and will be repeated again late next week.

SOCIETIES.

The Societies Department can use two or three men from the class to scout for requirements for positions will be explained in the Letter Office by the Editor in charge, Wednesday, at 5 P.M. Presence at this meeting is not binding, and all men interested are invited to attend.

WIRELESS MEETING.

Next Thursday afternoon the Wireless Club will hold its first meeting in the Union. The sole business to be transacted at this meeting is the election of officers. This may be participated in only by men who are already members. For those men in the Institute desiring to become members there will be a meeting a little later.

NEW INTERNATIONAL CORRESPONDENCE IDEA

Another of the results of Prof. Shimer's trip to Europe this last summer has come to the surface in the form of the announcement that he is willing to help the undergraduates here get correspondents over in Germany. This is a system of studying foreign languages which has only recently come into use, and its advantages are evident on the surface.

The idea is to have an American student and a German undergraduate correspond, each in the other's language. In this way each one can correct the other's work and at the same time get the desired practice in the new language.

All men in the Institute who wish to take up this correspondence course should consult with Prof. Shimer in his office in Pierce, 14. The students on the other end are in Freiburg, Bohemia, and should be able to write some interesting letters.

FRESHMEN, GYMNASIUM

A representative of a sporting goods house will be at the Gym on Wednesday from 1.30 to 3.30 to take orders for Gym costumes. Greater reductions will be given to those ordering at that time. Every one who shows up regular in order to receive credit for gymnasium work. This will be the last chance to secure costumes at this rate, and without going down town after them.
