Temporary Executive Committee
Appointed—H. E. Kebon
Assumes Chair

The Institute Committee held its second meeting at 4 o'clock yesterday in the Union. Many of the newly elected men were present, as well as those going out of office. Randall Creven, the former chairman, opened the meeting and gave over the chair to H. E. Kebon, the new president of the Institute.

Discussion was held as to how the business of the Calendar Committee should be carried on, and it was decided that a committee should be formed and necessary duties of the committee assigned to it. The Calendar Committee is to be formed to take care of the calendar, and to have its duties assigned. The Calendar Committee will be composed of five members, three elected by the executive committee and two elected by the executive committee.

A discussion as to who should represent the American Institute of Civil Engineers was held, and it was decided that it would be a member of the Institute Committee, instead of the President-in-Chief, as previously.

As there will be an innuendo of a farewell tour of the members of the Institute, it is desirable that all new members be invited to collate, and it is hoped that the members will be present in large numbers to join the society as well as persons who have attended the meetings of the society in the near future.

It is also necessary to elect a member of the Executive Committee of the Institute from the Freshmen class, as well as to consider resignations submitted by present officers.

There are about eight men in the Institute that come from this important preparatory school and it is desirable that the number of new members be increased. The number of new members has already signified that such was their intention. New members are expected whether or not they are at present members.

MECHANICAL DINNER
Jack Armour, Prof. Miller, and Riley Will Entertain

At 6 o'clock this evening the Mechanical Engineering Society will open its year's activities with a dinner at the Union. They are planning to have a moving picture and have engaged Jack Armour, who is connected with Power, to be present and entertain the meeting. Said Jack Armour is an entertainer of some note, so that it is probable that the evening will be a perfectly pleasant one. Besides this man Professors Miller and Riley will be on hand.

The main reason for holding this meeting is to get the new men acquainted with the old together, and to discuss the plans for the society. In particular, there will be an announcement of some moving picture. It will be held in the Union, and it will be in the same way as has been whispered abroad for sometime, but which is now definitely announced. This will consist of the Club and Electrical to sit up and be ready for any new men or interesting talks, and a good attendance is expected. The tickets are fifty cents.

ARCH. SOC. SMOKER
The first smoker of the year is 1:30 p.m., in Room E, the Pierre Building. The main object of the meeting is the selection of the Secretary-Treasurer. Other business pertains to the society as usual.

Tickets are being sold at thirty-five cents.

C. E. SOCIETY TO HOLD FIRST DINNER
Prof. Swan Of Harvard Graduates To Talk—Excellent Menu Arranged

Professor George Fillmore Swan, P.E. of the department of civil engineering in the Harvard Graduate School of Applied Science, is to be the chief speaker at their meeting in the Union tomorrow evening, and will give the Annual Lecture of the society on Field Day. From fifty to sixty members should report daily in the Union, as the meeting is to start at 7:15 o'clock. 

For some time but which is now definitely announced, the Club and Electrical to sit up and be ready for any new men or interesting talks, and a good attendance is expected. The tickets are fifty cents.
