The Chemical Society

Professor Norton of the Physical Department has recently published a pamphlet containing the results of
his work in the study of the physical properties of concrete. This work has been
very important in the study of materials, as it has involved a full
understanding of the properties of concrete, and

TECHNOLOGY CLUB MEETS COLLEGE MEN

Professor Dewey gives speech of welcome. Mr. Humphrey tells of adventures.

On last Friday evening, in accordance with the custom of the Technology Club, Mr. Samuel Humphrey, an
expert in the field of the physical properties of concrete, gave an

CHEMICALS' DINNER TOMORROW EVENING

Professor Talbot and Fay on Liquid Air. Open House to Eligibles.

The Chemical Society holds its traditional New Year's Eve at six o'clock, when members of the institute will
be entertained by Professor Talbot and Fay on Liquid Air. The dinner will be

BIG STABLE FIRE IN MILTON

Last night's fire in Milton was one of the largest found in the Milton area in recent years. The
River Valley Co. were completely destroyed. The fire was probably valued at $25,000, including the loss of
its large stable, and the plant of delivery equipment and about $10,000 worth of one hundred and three
horses. Some of these were also used in city work.

The general alarm called out all of Milton's apparatus, and one alarm for Boston engines was run. The first
alarm ran in at 10:15, and was followed by the others in quick succession. The alarm was not given until
shortly after midnight.

THE TECH

BOSTON, MASS., MONDAY, OCTOBER 25, 1911
PRICE TWO CENTS

Features of Work on The Tech of Interest to All.

Beginning with the next issue of THE TECH there are to be a number of innovations in the methods of
work which will appeal to the undergraduates and

START NEW SYSTEM.

Frank H. Briggs, General Treasurer.

The college is governed by the men who take the trouble to think. Every man who thinks for himself, whether

on the wrong side or on the right side, is exercising a power over the lives of others. It is

therefore important that we consider the whole of the business of

the campus as a good one."—President Hadley.
