FRESHMAN TEAM WINS FIRST GAME
Winchester High School Team Defeated by the Score Of 17-0.

The Freshman football team was victorious yesterday in a hard fought game with Winchester High, winning 17 to 0. Although this was the first game for the 1915 Freshman team, their goal line was never in danger of being crossed by a Winchester team. By a spectacular play at the 8 yard line, they scored early in the 1st period. In the second half, many Trim Mean men were discarded, and the game settled down to an honest fight.

FRESHMAN MASS MEETING TODAY.
Cheer Practice In Huntington Hall At One O’clock This Noon.

The Freshman class will hold a special mass meeting in Huntington Hall this afternoon at 1:00 o’clock to arouse interest in Field Day and to practice their new cheers. 1915 has shown very little class spirit as yet, but this will all be changed if a large, enthusiastic and zealous group of fellows can be gathered together.

The meeting will be held in Huntington Hall and the cheers will be given by the Yaw Squad. After the meeting, the group will move to the Freshman offices and the cheers will be practiced in detail. The meeting will close with an address by President Humphreys of the Tech Club.

CROSS COUNTRY TRAILS YESTERDAY.
Soft Ground Makes Time Rather Slow—Thirteen Men in Final Squad.

The trials for the Varsity cross-country team were held yesterday over the tech course. The recent rain had made the ground rather soggy, so the times were not as fast as expected. The weather conditions, however, were ideal.

The men held together well until Lutz Anderson's was finished, when they began to spread out. Despite this, they appeared around the track at the start about 20 yards apart and finished well together.

Thirteen men were picked, from a total team of 15, to run in the trials. Practice will now start in earnest and strict training will be given an illusory measure of success. The trials made a well sorted team that is expected to hold Harvard and Brown and to win in the 10 to 15 placed finish that the Indians promise.

HOG NIGHT POSTPONED.
President Humphreys of Tech Club Will Describe Sport.

Hook Night has been postponed by the Entertainment Committee of the Union Committee because of the small number of entries promised them for the entertainment Friday night. However, enough entries have been secured to keep the President of the Tech Club, Mr. Humphreys, from giving an illustrated lecture on sports that should be well worth hearing, because he has traveled a great deal in that country and owns a large number of lantern slides of scenes there. Every man who heard Mr. Humphreys at the Technology Club will want to hear him again, and every one else who can should make it a point to attend it. It does not wish to miss a most entertaining event.

The committee wishes to thank those who did take the interest, to offer to others, and to hope to be able to have their club services later on in the year.

YALE STATISTICS.
Of Yale graduates living and dead there is now a total of 26,213, according to the latest publication of the university published October 6th. In the list of 13,566 living graduates, 1,509 are of the academic department number 14,092, while 4,964 are of the law school, 2,928.

A comparison of a previous cata- logue indicates that in 1914 shows that the living graduates or Yale are in their 4 years of about 68%, while the list of deceased is at the rate of about 20% a year, which will have reached 3% a year.
