EDITORIAL.
The Worcester Polytechnic Daily recently published in their editorial column a letter from a teaching insti- tuting staff who subscribed to the paper, and who had paid their subscriptions. We feel compelled to make an appeal for the support of our contem- porary in being able to announce that 100 per cent of the instructing staff are regu- lar paid-up subscribers to their pub- lication. The point is a very, very fair one in which such superior technical school can boast of superiority over M. I. T. and we are sorry to say it is in one of those points. We will not em- phasize how to be where the men are by quoting figures or percentages in this list, but we feel that it would do no harm to take example from the do- ing of the instructing staff at Worcester Tech.

The percentage of students subscribing was also very high, relatively speaking, varying from about 65 per cent. In the Freshman class up to about 85 per cent. In the Class of 1912. And the odd part of the entire matter was that they were compiling this report with the lack of support. Would that we might be able to com- plain for the same reasons.

The college of your choice, or to the contrary the college of your choice was the subject of great nationwide problems as outlined by Professor Dewey. They have surived the tortures of Charles Adams' yard on what subject, or not you see a thing when you look at it, but that inevitable mixture of straight- lines and visualization known as Descriptive, and are now to be deprec- ated, disregarded, and disregarded by the yells of 'Votes for Women' and other like calls. To make a long story short. are we, as undergraduates, going to stand by and see the poor old hall treated in this hallucinatory manner? Is it not bad enough to have been in the Pierce Building without having more in Huntington Hall?

Let every one of us enure a vigorous protest against such maltreatment of an old friend.

T. C. A. SUBSCRIPTIONS.
Chance to Pay Offered Those Who Forgot Last Spring.

There is at present $2.75 left un- paid by students who signed the Techno- nology Christian Association subscrip- tion circulated last spring. The ob- vious reason for this state of affairs is that the fellows have not combined with the fact that the officers of the Association neither had no time to chase up such subscribers and collect the amount promised.

This year, however, the act of planning an active campaign and trying to sell subscriptions to the fellows in selling their sub- scripts or a notice for each man still in the lists, who has not paid his subscription will be left at the Cage, and the officers will see the men personally when possible. The money may be left at the office, Room 3, Eng. II, or at the Cage for the treasurer, Hamilton Merrill.

T. C. A. TALK TODAY.
This noon, at the Union, will be held the third weekly meeting of the Technology Christian Association, and a large attendance is expected, even exceeding the two hundred that were present.

The meeting should prove especial- ly popular through the choice of speaker for Mr. D. C. Stranahan of the Essex County Y. M. C. A. He has given a business career in Provi- dence to devote himself to Y. M. C. A. work, and will bring to the fellows here a direct, forceful appeal. His

Shave Without a Smile
You Can't Get a Real Shave Without a Real Razor.

THE DURHAM SIMPLEX
is a Real razor. It slides smoothly over the face sever- ing the whiskers with the correct diagonal stroke like a scythe mows grass. It leaves the skin soft and velvety—not rough and harsh as after scraping with razors which do not have this stroke.
