UNION INNOVATIONS.

In the future we are to be met by the smiling faces of the members of the Faculty right at the entrance of the Union Dining Room at lunch or dinner. This is according to the latest change made by Howard Colton, designed to give the professors a place where they may eat in a savory way from the fellows.

The idea seems to be a good one from the professors' viewpoint, but it seems to be rather against the old idea on which the Union was founded. This was to be a meeting place for the students and Faculty where they could come together in a social way and on equal footing. Now, however, the Faculty are withdrawing and making an artificial boundary between themselves and the men who eat in the Union regularly.
