THE TECH

To the Editor of THE TECH:

While recognizing the superior learning and wisdom of the members of the English Department, whose communication appeared in a recent issue of THE TECH, we cannot let it pass without replying to his charge that we have not listened to the Society. Said to us, we haven't had the good fortune to take the course in "Public Speaking" and "Argumentation and Debate," and so we must be excused if our vocabulary and the style of one word approach zero as a limit in comparison with those of our worthy critics.

The officers of the society have found that there is always a tendency to classify men while they eat, but we believe that it is not necessary to classify men while they eat, but only to satisfy them, as the Union is succeeding in doing.

RESERVED.

BUZZ WAGON.

In years past, on Field Day, several of the various societies, courses, or classes, have gotten together and chartered one or more of the large "buzz" wagons, commonly known as "messengers," for the purpose of transporting the various members of the field for the afternoon's activities. That little side job, added a large amount of pleasure to the enjoyment of these taking in the trip. It seems too bad that no one else has started out to run a series of Buzz Wagons between Rogers and the Field on Friday afternoon. THE TECH feels that as no one else has started any agitation in this line they must be the "Gone," so it any one who is interested in the matter will leave his name in the Upper Office the Board will arrange to have a Buzz Wagon leave Rogers at about 1:30 o'clock, allowing ample time to get out to the Field before the excitement commences. At least 25 men must signify their intention of going in order to secure payment. The cost will be about $1.00 per head to defray payment for use of the machine, decorations and damages. There are two kinds of Faculty, one kind and the other.

Will the ballots of the Sophomore SAT be counted?

Are you going to the Field Friday in the buzz wagon of THE TECH?
