FRESHMAN RELAY
WORK FOR LAST TIME

New Suits, Last Instructions
And Final Rub Put Men in Good Spirits.

The Freshman relay team held its last practice at the field yesterday afternoon, in the midst of a cold drizzling mist. All the men except Lapp reported to Capt. Hann, and Fulton was substituted in his place.

The work consisted of a 220-yard drill, a 50-yard sprint, and a final 300-yard sprint. The north side of the track, where the team worked, was wet and heavy, and it showed the men up somewhat, but they passed in their regular turn and got one last line on the men who both follow and precede them in the race.

The practice race was run by scaling the men around the track at 150 yards and giving them that distance per man. Before the final 300-yard sprint Coach Ranally again warned the men against failing and making mistakes. The team finished correctly, with Capt. Hann leading at the tape, and pranced into the dressing room to have all the stiff places rubbed out.

Manager Spear was on hand with the new suits, which are very neat in material, and stripes down and around the neck of the running pants. Every man left the track in first-class shape, capable and ready to do his best for his lane.

MOVING PICTURES.

Harvard and Tufts Men Expected
—Everyone Invited Tonight.

An opportunity will be given to anyone who has any questions to ask, and the lecture will gladly respond.

An invitation is extended to all the men of the Institute. The admission is free to all, and everyone should attend if possible.

SOPHOMORE RELAY.

In spite of the wet weather and darkness, the Sophomores held their regular relay practice last night. Passing the flag was first practiced, and a couple of races were held against an imaginary team. The track being wet and heavy, slow times were in order, but the passing has now been reduced to a science. The maps to be carried by the runners have arrived and suits are ready for the men. This will be the last practice before Field Day. Everybody is in excellent shape, and bad weather is the only thing that will prevent very fast time.

TECH MAN MARRIED.

James Stewart Cox, M. I. T., 1910, was married Tuesday evening to Miss Lilian R. Cushing of Norwood, Mass. Mr. Cox was a member of Course XI, taking up special work while at the Institute, and was prominent in his class. Mrs. Cox is the charming daughter of J. B. Cushing of the Governor's Council.
