E. E. SOCIETY TO GIVE ILLUSTRATED LECTURE

The next Electrical Society meeting will be held next Friday evening in the Union. The speaker will be Mr. Day Baker, the New England superintendent of the General Vehicle Company. As an appropriate subject for the occasion, Mr. Baker will discuss Electric Vehicles. The first part of his lecture will be on the different modern types of these vehicles. After this the various methods of installation will be fully taken up. Stereopticon slides will furnish accompanying illustrations for both these divisions of the subject. A third part of the lecture will be the consideration of some of the more original inventions and the unusual uses to which electric vehicles are expected to be put. The lecture will be given at this time.

In an earlier edition of THE TECH, in which a brief announcement of this meeting was given, mention was made of these stereopticon views. Since that time the society has found it possible to give 1000 feet of moving picture film. This film will, of course, be shown more interestingly than the lantern slides.

Mr. H. P. Thomason is conducting an investigation along these lines for the institute, and this fact makes the subject particularly interesting to Tech men.

The way in which lectures conducted in this way have always been received practically assures the success of Friday evening's program. The meeting will commence at 7.30 o'clock in the Union. Everybody is welcome.

WILSON HIGH MAN.

Heads List in Du Pont Cup Competition—Baker Second.

Louis A. Wiltsie, 1914, of Dorchester, is the leader in the Du Pont Cup competition, the fall season having ended Saturday. Wilson scored a total of 195 points in the three required events. The points are scored similar to the way they are scored in the all-round championships, but so many for a certain time in the run and distance in the weight and field events.

The winner for the cup each year gets his name engraved on the handsome trophy kept in the Union and is presented with a small copy of it. The competitor is given the chance to pick out any one of the three common events, a run, a field event, and a weight. Wilson, who is the best sprinter at the Institute, chose the 220 yard dash, the broad jump and the discus. He competed in the dark and the distance had to be measured by long-jump light. His performances were as follows: 220 yard dash, 24.55 seconds, counting 90 points; discus 76 feet, counting 3 points, and the broad jump 19 feet, 6 inches, counting 76 points.

The other competitors, who were all freshmen, rank in the following order: D. D. Diker, 45; C. L. Hall, 35; H. C. Thomas, 30; L. P. Quirk, 22; C. W. Lovell, 22; E. H. Freeman, 15; J. C. Hall, 11, and C. T. Dunn, 10.

Prospects for the swimming team look bright.

Has your gold last year's T C. A. subscriptions yet?

Is it probable that both Japan and China will have strong teams at the Olympic games in Sweden in 1912.

A team as strong as that record-breaking relay team should be presented with some sweaters by the class of 1914.

Macular Parker Company

CORRECT CLOTHES FOR STUDENTS made in our workshops on the premises and ready for immediate use. SUITS $25.

FINE FURNISHING GOODS 
400 WASHINGTON STREET
