Brown Team Defeated by Tech Runners

Close Race Won By Taber of the Brown Squad

Tabor of Brown, Shoed of Tech, Waterman of Brown, then Marceau and Seigel, then the whole Tech team, with the exception of one Brown man, who finished second, then the last Tech man, which was the order that the men entered the gate, and then the last Tech man ran across the finish line in the Tech jacket, beating by two lengths, two Tech men, which the Coach won by a score of forty against their forty-five.

Their start was close, and were off at the crack of the pistol at 3:20 sharp. C. A. Cary, Tech Coach took the lead, and was followed closely by H. R. Taber of Brown. These men retained their relative positions for two miles. G. C. Shedd, Tech, 1914, and W. E. Waterman of Brown were fighting for second place from the start, and were running close to one another from the start to the finish.

Cary lost his lead at the two-mile mark and dropped back to the bunch of Tech men, who alone were able to play all through the race by keeping with each other's pace and for the race for them. The Tech squad started off 1914, and was able to climb up on the wearers of the brown jerseys and came on to the field after- wards, with one or two exceptions.

The course was a fine one, mainly consisting of eight miles of climbing. About half way the course ran through a small pit which went a long way in favor of the runners. A small number of spectators gathered in front of the finish line to watch the finish, but not a murrum of Brown home students attended. Brown rooting were on the job, however, and made up much noise as the brown team, 1914, was coming.

Samueller, 1917, of Providence, who formerly ran on the Tech cross-century team, was on the field, helping the Tech men along.

On the whole, the Tech team 1914, was the first in the race, the finishing of Marceau and Nye. Marceau outdistanced Nye about forty yards ahead of Nye, but Nye kept coming up, and when within thirty yards, Nye surged ahead, and was Nye's team mate. They ran side by side for about five yards, each striving to gain on the other, and to all appearances crossed the line together.

The time of the race, according to the coaches, was very fast, and as it was the first time a race has ever been run over this course, there is nothing to judge by, the first man, coum- tered the course in a half and a mile in 23 minutes, 57.5 seconds. Shedd, who was behind the field, while Waterman was only 1-2 seconds behind him, says he was a good 10 seconds behind the finisher. He was asked about the time of all the other runners.

The order of finish was as follows: R. Taber, B; E. C. Shoed, T; W. E. Waterman, H; T. R. Bailey, B; T. E. Marceau and A. P. Nye, T; A. W. Bailey, H; F. W. Seigel, B; D. R. Cary, T; R. D. Romney, T; R. B. Palmer, T; E. B. Perry, P. J. Wall, T; L. Demmell, T; J. N. Taylor, B; C. W. Wilkins, T; L. Hall, B; and W. W. Shephard, B.

Yale has taken another step toward making the Cotton Cup. The basketball team will be coached this year by graduate student.

Mr. I. E. Moulthrop to Address Mechanical Engineers

Engineer of Edison Company to Talk on Machine Plant Design

The Mechanical Engineering So- ciety will hold a meeting Thursday, November 15, in room 11, Engi- neering B. The society has been fortunate in securing for a speaker Mr. J. E. Moulthrop of the Boston Edison Company. Mr. Moulthrop will talk on Power Plant Design, giving special attention to boiler-house lay- out.

Mr. Moulthrop has held for seventeen years the position of Re- porter for the Boston Edison Company and is a well-known authority on power stations. He has had consider- able experience in the design and operating of stations which have their boiler rooms on the second floor. Thus he will have the advantage of handling coal and ash. This is an opportunity not to be neglected by men preparing to go into this field, who will this meeting will be able to study the views of a practical man on the subject.

Besides the talk by Mr. Moulthrop the business of the society will be taken up. The principal item will be the election of a treasurer, for Mr. A. P. Kearns, who was elected treasurer last spring, did not return to the in- stitution this fall. The election being held at the meeting, nominations are now being received by the committee in charge. The committee consists of the members of the society, if they are in attendance.

MUSICAL CLUBS

Trip Through West to Chicago Now Practical Reality

Plans for the extended trip to be taken by the combined Musical Clubs at mid-year are progressing rapidly toward completion. It is now practi- cally certain that the trip will extend to Chicago, for as far west as Chico, California, with nearly a dozen other large cities, including Pittsburgh, Springfield, Prov- eniance, Fall River and Syracuse.

It was originally planned to hold a preliminary concert some time this month, but it has been neces- sary to postpone this until the second term.

CONSERVATION LECTURE

The second and final of the lectures on Conservation of our Resources will be delivered by Charles R. Van Hise, of Wisconsin. The talk tonight will be on "Conservation Policy," and will begin promptly at 8 o'clock. Members of the class will be present in full, and the tickets will be locked sharp- ly at 8. The tickets may be obtained at the Registrar's office, or of any of the students.

Charles R. Van Hise has made a very exhaustive study of his subject and can handle it in a very interest- ing and instructive manner. He attended the first talk last week to testify to its practical value. As the numbers may be taken as a basis, there should be a considerable number of interested audience, in the old hall tonight.

Sophomore-Freshman Basketball Team

Regular Practice for the 1914 Men Starts Friday in the Gymnasium

The first regular practice for the Sophomore basketball team will be held Friday at 4:30, in the gymnasium. Several men have already been out for practice in the last week, and the prospects are fairly good. The Sophomore will start practice every Monday, Wednesday and Friday each week for the remainder of the season. It is to be hoped that the Freshmen will take place in the later part of the season. The list of current players from last year's squad who have been out already include: Hibbard, W.; C. A. Cary, T.; W. F. McLaughlin, T.; A. S. MacGregor, 1907, manager, Price, Cleverly, Deery (vice-president), E. W. Edlin and W. F. O'Brien.

President Murlin to Speak in Union at 4

Has Won Remarkable Reputation As Public Speaker—Big Crowd Sure

President Murlin, who is to address the Christian Association in the Union at 4 o'clock today, is a very young man, and has already won an enviable prominence in the education- al world. Before coming to Boston he was president of Baker University of Kansas. He was chosen by Boston University last winter as its head, and the inauguration ceremony, held Octo- ber 29, 1911, was said by critics who have seen others of the kind to have been the most impressive services held in the United States. On that day President Murlin spoke in front of his friends and a made a success every time — a fact that a professional public speaker might be proud of, let alone a college officer. Since that day he has continued to do a phonemi- cal quantity of work outside the Uni- versity, and he has so far accomplished in his official than his private work. He has always been energetic and has done so much that it will be wondered if there is any President Murlin left next year.

FINANCE COMMITTEE

This evening the Finance Commi- tees will hold its first meeting and dinner in the Union at 6 o'clock. The Treasurers of the various organiza- tions named in the articles of incorporation have been asked to attend, and these will occur are to attend. The dinner will be held in the upper room, and will be followed by a discussion of the busi- ness in hand.

PROS IN PUBLIC EYE

Professors C. H. Peabody and H. A. Everett, of the Department of Naval Architecture and Marine Engineering, are now in New York attending the annual meeting of the Society of Naval Architects and Marine Engineers which is held today and tomor- row.

Both men are to present papers, Professor Peabody as usual on the subject of Producers which is held today and tomorrow afternoon. The lectures include:

Both men are to present papers. Professor Everett is on "The Effect of Waves Upon a Trafalgar Wing."

Where is the gym team? So far no one has turned out for practice. Freshmen, get busy and pay your dues, if you want a vote in the election.

CALENDAR

Thursday, November 16, 1911.

C. T. A. Talk—President Mur- lin—Union.

4:15—Mandolin Club Rehearsal—

4:30—Glee Club Rehearsal—Union.

4:30—News Board Meeting—Upper Office.

5:00—Hockey Practice—Arena.

6:00—Society of Naval Architec- tures—Sawyer Hall.

6:30—B. A. T. E. Meeting—Sawyer Hall, November 17, 1911.

6:00-6:30—C. E. T. Club at Pensioners'—Hunt- ington Hall.

7:00—Maidens—Union.

7:45—Conservation Lecture—Hunting- ton Hall.

8:00—Student Opera Society—Huntington Hall.

8:00—Glee Club—Union.

8:00—Basketball Practice—Gymnasium.
