THE TECH, BOSTON, MASS., NOVEMBER 23, 1911

THE TECH

Published daily except Saturday during the college year by students of the Massachusetts Institute of Technology.

Entered as second-class matter, Sept. 25, 1907, at the Cambridge Post Office, under the act of Congress of March 3, 1879.

MANAGING BOARD.

H. W. H., 1912, Editor-in-Chief.
R. W. M. E., 1912, Associate Editor.
L. C. A., 1912, Assistant Editor.
A. C., 1912, Associate News Editor.
A. F. P., 1912, News Editor.

RESOLUTIONS BOARD.

D. V. D., 1912, Treasurer.
F. S. S., 1912, Secretary.

THE TECH takes great pleasure in announcing the election of Alexander Joseph Pastene, 1913, to the Managing Board.

It seems most important that the members of the Hockey Team receive train as well as the members and candidates for the Boston Tech. It is evident that such training is necessary if the Tech will stand a chance of winning against the other athletic teams. The Tech men must learn to cooperate, because they cannot expect to have any advantage over the other athletic teams. The Tech men must also learn to be patient and to make every effort to win the game.

Mr. I. E. Moultrop Will Speak About Roller Plant Design.

The Mechanical Engineering Society will meet at 4.15, in Room 11, Engineering Building. The meeting is to be held for the purpose of electing officers to carry on the work of the society. The meeting will be held for the purpose of electing officers to carry on the work of the society.

M. S. E. SOCIETY MEETING.

Mr. J. E. Moultrop Will Speak About Roller Plant Design.

The Mechanical Engineering Society of the American Society of Mechanical Engineers has resigned, recommending Professor E. M. Miller for the position of temporary chairman. The society has decided to have a new temporary chairman, who should be paid out of the club funds.

COMMUNICATION.

To the Editor of THE TECH:

The Treasurer of the T. C. A. has sent out eight letters to men who subscribed some amount last year and did not pay. So far as I can determine, only a few of these letters have been answered. The club has an enormous sum of twenty-five cents in answer to these letters. Of this sum, fifteen cents went to envelopes in which the letter was sent. All honor to the man who saved the Association from bankruptcy! Why is it that Tech men are "no backward in coming forward"? What are the club funds used for? Why do they not refund any money? Why don't they pay up? If each man paid twenty-five cents, we would have $20 (less the 15 cents paid out; see above). That's easy. If some of the seventy-nine paid more than 25 cents—well, that's much to be desired for a man who is not a mathematician; but if the men all come around and pay up, we can guarantee to keep the club afloat. The treasurer is the most admirable mathematician. L. R. Talbot, Secretary T. C. A.

INSTITUTE COMMITTEE.

The meeting of the Institute Committee, which was scheduled to hold yesterday afternoon, has been postponed until Monday, at 4.00. This meeting will be held in the union next Wednesday at 4.15, in Room 11, Engineering Building. The meeting will be held in order to discuss the matter of the acting chairman, who should be present for the first time and meet with the institute committee.

THE SMOOTHEST TOBACCO

Over the hills with dog and Velvet is companionship indeed.

Velvet, famous as the finest leaf from old Kentucky—aged by time—the only make sure process.

The leaf hangs in the old warehouse for over 2 years—gradually changing from green to mellow—then you get the smooth, full flavored, good tasting smoke that the southern planters themselves like. Never a bite in such tobacco.

Velvet! Don't forget!
