KOMMERS' DINNER TO BE JOVIAL AFFAIR

Manager Woobling Will Outline Plans For This Year's Tech Show.

On Saturday evening, December 26, at 8 o'clock, the annual Tech Show Kommers' dinner will be held in the Union dining room. Treasurer Woobling has been assured that several of the old show men will be on hand to furnish entertainment, and it is rumored that some of the "choreus" girls will appear in bathing costumes.

The primary object of the Tech Show Kommers is to give the new men at the Institute an idea of just what Tech Show is and what they can do to make it successful. Tech Show is given entirely by Tech men and it must depend upon Tech men for its success. This is the only show dinner of the year which is open to all classes of men as an Institute function, and it is hoped to bring together one of the most jovial crowds in the history of the Union. Those who have attended any of the former show dinners will need no urging to be present. Tickets will be sold at the "Cage" and by the members of the Show management.

General Manager Woobling will outline the general policy of the Show.

DR. O. P. GIFFORD IS T. C. A. SPEAKER TODAY

"The City Without a Church" to Be Noted Orator's Subject.

The T. C. A. is expecting another record crowd this night as the Technical Club Union, when Dr. O. P. Gifford is to speak on the subject, "The City Without a Church." Dr. Gifford is well known not only in this city, but also in colleges as a remarkable thinker and maker of epigrams. He has distinctly original ways of putting things and is sure to say some things that Tech men want to remember. The T. C. A. is extremely fortunate in having secured Dr. Gifford, for he is not only by his well-known reputation, but with the recommendation from men of high standing, including Martin, last Thursday's speaker, as a man must fit to talk to college men.

The T. C. A. talks have gradually increased in popularity since the beginning of the year, as shown by the present in them the group attendance. These tickets who are responsible for the coming of us to re-election hope that the audience will be crowded with men to give him a good reception.

MINING SOCIETY.

Prof. Stoughton Will Give An Illuminated Lecture.

Professor Stoughton will give a lecture meeting of the Engineering Society to be held this evening at 6:30 p.m. in the Union, when Dr. Gifford is to address the group.

JUNIORS WILL MAKE T H E P R E S E N T A T I O N.

(Continued from Page 1.)

Juniors are scheduled for the lecture, to which they have been looking forward. They are certain to learn something from this lecture, as the topic is one of high interest and importance.

And last, but not least, the Junior Lecture will be held on Tuesday evening in the Union. The Junior Committee has been working hard to make this lecture a success, and it is certain to be a great success.

THE TECH, BOSTON, MASS., NOVEMBER 23, 1911

I.C.A.A.A.

(Continued from Page 1.)

The hardest part of the run. The flags lead them through avenues, across hills, and through dense woods, bordering the curling pond. Again, at the two- and seven-eighths mile mark the course turns another tuck and goes in a northerly direction to the three-mile mark, where the spectators in the grand stand at the Institute line the track.

The course follows the general direction of the first three-quarter mile hill. It strikes the first turning point, but now takes an opposite direction and runs for a short distance north, sweeping around to the starting pond over a steep hill. Past the frontmost mile mark, the course crosses itself and sweeps down to the polo grounds once more. At this point the spectators can follow the runners for over a quarter of a mile, where they again disappear into the woods, a mile and a quarter from the finish.

Making a large circle and crossing itself three times, the course comes back to the polo grounds, entering the field at a point east of the grand stand at the Institute and in front of the pom-pom building from which the spectators can follow the course running, will be eliminated entirely.

UNION COMMITTEE.

The meeting of the Union Dining Room Committee, which was to be held after the Tech Show on December 26, has been postponed to December 30.

The Committee is gratified by the fact that all complaints as to the food and service have been received entirely.

Don't!!! Forget the address...We make a special effort to win the esteem of Tech men.

SOCIAL and BUSINESS DINNER Class and Private Lessons

Making an outline of the Tech

and the managers of the several departments will give an outline of the work of their respective departments. The members of the Tech Show Board of Directors, several good speakers and at least six or eight of them who will give the men short talks on the results of their classes and the internes and the amid.

After the dinner the fellows will allow the living room apartments, where they will gather around the piano and make the Union ring with chokers and songs of all varieties. Some of the "stars" of former shows will be expected by the committee for music and choral, which can be held later.

Men are expecting to come out Tech, for Tech is a word to set them ticking at one of the Cape, as they always do. They expect the show to be a success.

WANTED—Dress suit to fit a man 5 ft. 11 in. high. Address B. P. Vieth, 4 Cotton street, Roxbury. Thank you.
