CATHOLICS HEAR INTERESTING TALK

Rev. J. F. McGlinchy Speaker at Successful District Annual Dance Plans.

The Catholic Club held its third meeting of the year in the Union last evening, the meeting was enlivened by the music that will be in sale charge of the club. The Rev. Dr. McGlinchy, who acted as Director of the "Society for the Propagation of the Faith," his talk was of the work the missionaries themselves are in many cases in great need of the necessities of life.

Then he described the other side of the society's work, the gathering of conferences. The Rev. Dr. McGlinchy pointed out that two types of brothers were largely supported by the society. There are the brothers who wishes to remain unknown, and the second type is that of the brothers who is making some sacrifice, that he may give some aid in the work of the Church, which he feels to be of great importance. An anecdote to bring this out more strongly was that of an embodiment of what he described as the conditions now existing in China and Africa. There the work and prayers the Rev. Dr. McGlinchy mentioned that the society's work, the gathering of conferences that were held in the Trinity Parish House.

A. W. Venner, 1912, is in charge of the Civil Engineering Society this afternoon at the Union.

Major Cole's talk on Rapid Fire Surveying will also be given in the Union.

CLASS FIVES HOLD SNAPPY SCRIMMAGE

Yesterday afternoon the Freshman basketball team held its practice session in the union. The 1914 men were also out for the same purpose. Owing to a misunderstanding in dates, the game was put up at the last minute by the Freshmen.

They have some good material and so far have been quite successful in their games.
