ONE PIECE HAMMER
IN THE NEW MODEL
Ithaca

If you have never heard the name Ithaca you have never heard of a hammer you will want. This one piece forged steel hammer is made to do the most difficult work. The one piece, only one hole, no tie-up or anything to get in the way, is so perfectly balanced and accurate in weight and length that no other hammer could compare. It is a one piece of a second to operate and in operation it will last longer than half the time required for such a hammer. It is also the best value for its money. In addition to being at an unusually low price, it is the only complete malleable iron hammer of this kind on the market.

Ithaca Gun Co., Ithaca, N.Y.
