PLANS COMPLETED FOR COMPETITION
Architects From Six Leading Colleges in Test of Ability.

At a committee meeting the other day in New York it was finally arranged that an Intercollegiate Architectural Competition should take place between Columbia, Cornell, Harvard, Michigan, Pennsylvania, and Washington University. Two prizes of $300 and $600, respectively, are offered by Mr. Lloyd Warren, a New York gentleman, who is very much interested in education, for the best work in two classes. The first class will include advanced and fourth year students, and the second will be open to third year men in design.

The competition is to be conducted on the usual lines, requiring the competitors to depend on themselves for their ideas, thus showing just what there is in a man. Not more than ten entries are to be submitted for final judgment. The jury to consist of one representative from each college, a member of the instructing staff to be a member of the jury. Great care will be taken to preserve anonymity. The committee has arranged final details and the preliminary sketch will be made February 28, 1912, the final drawings to be handed in on April 3.

The step is one which has been contemplated for some time, but owing to conflict in the calendars of the different schools arrangements could not be perfected until recently. This will undoubtedly prove to be a factor in the advancement of architectural education.

PUBLICITY DEPARTMENT.
Continued from Page 1.

Publicity has been very much interested in the work of the Tech. All letter writers have been asked to send samples at the Tech office. Samples have been ruled out of Cornell College a considerable time, and the work consists chiefly of the Tech in the writing of articles for THE TECH, BOSTON, MASS., January 2, 1912.

Works in the Publicity Department commence soon after the opening of the school, and the work consists chiefly in the writing of articles or sketches for THE TECH and for Boston papers. The work of the committee is to subject the Tech before the student and public.

Another important side of the work is the posting of the monthly bills by the student. This posting is on the Tech in the Preliminary Sketch will be made February 28, 1912, the final drawings to be handed in on April 3. The work has been running smoothly so far this year, a great deal of progress has been made, and Manager Whitwell predicts a very successful show.

COLLEGIATE NOTES.
All letter advertisers have been ruled out of Cornell College, papers by President Schurman. This is one of the results of agitation stirred up by the recent opening made by a Western millionaire as to drink Among college students.

Saloonkeepers of South Bend, Ind., are in whole sale awe of the College of Notre Dame. For forty years they have had before them the loyest of patrons a standing warning that if they sell liquor to students they will be prosecuted to the full extent of the law. They have learned that this is no idle threat, and that the authorities of this Catholic university mean to protect their students even if the civil authorities do not.

BASKETBALL TEAM LOST.
Saturday evening, December 23, the basketball team was defeated by the Boston College of the City of New York by a score of 38 to 8. The game was played in New York and the team was outplayed.
