BASKETBALL TEAM TO PLAY NEW HAMPSHIRE

Team Much Improved in Passing
And in Shooting Since Last Game.

The Varsity basketball team is working the second five for all it is worth this week in preparation for its next game Saturday with the New Hampshire State College team at Durham. The squad has made a lot of improvement since the last game, and it is sure to give a much better account of itself. The passing, especially, is a great deal better, but the covering is not as good as it might be. Captain Schreiber and Friedman are the star players, but Shatze's clever shooting is attracting much notice. Morry is reaching them well at center.

The second team has shown even more improvement than the first five, and the Varsity has its hands full to keep them from scoring. Capen and Samson have shown up particularly well and seem to be of almost Varsity material.

The men to take the trip to Durham are Managers Friedman, Captain Schreiber, Shatze, Morry, McCarthy and Brone.

CATHOLIC CLUB.

(Continued from Page 1, Col. 4.)

The price of the tickets will be only $1.50, and every member of the club is expected to attend. The dance this year promises to be more of a success than last year's was. The committee has been unusually active and all the arrangements have been made except the sending out of the invitations. A full account of the arrangements will appear in an early issue of THE TECH. At the close of the meeting Father Scanlon addressed the fellows.

TENNIS CHAMPIONS.

The Austrians Win Last of Series—Wright Unable to Meet Heath.

The last of the series of matches between America and Austria was played yesterday in Christ Church, New Zealand. The Austrians again demonstrated their superiority when Norman Brookscare defeated McGoughlin in the singles. An unfortunate accident occurred when Wright was unable to meet Heath in the other singles match owing to illness, and it appears that Larned might have stepped into the breach if he had not felt apprehensive about his chances of winning.

The Austrians by the scores have apparently been in a class by themselves as the Americans. It is the strongest team the country could possibly put forth. Captain Whitehull, who has been the winning team as the greatest tennis experts the world has ever seen, and that the rising talent in Australia will be able to defeat successfully the cup for years to come. It is a great pity that the Australians are so far away from this country and unable to play for the Cup, as the great deal of their international favor. If, for instance, Australia should lose the cup the possibilities are that France, Germany, Spain and Italy, as well as England, America and Australia, would have played next year for the trophy.

PUBLIC SPEAKING.

Visitors are welcome to all these exercises.

COES & STORDSDEN

Desirable Shoes for Students

10 TO 14 SCHOOL ST.
