MINERS HOLD MEETING IN UNION

Mr. Shimer Giving Interesting Talk on "The Geology and Scenery of the Rhine."

The Mining Society held an open meeting last evening in the Union, and although the attendance was very small it was exceedingly interesting. Prof. Harold W. Shimer gave a talk on "The Geology and Scenery of the Rhine," which was illustrated by a series of geographical slides.

The Rhine is divided into two divisions: (1) the gorges, the most celebrated of which is the Rhine Gorge; (2) the gorges, the most celebrated of which is the Romantic Rhine.

Some sections were shown giving the geological situation and the most important deposits.

Somes were given of Strasbourg, showing the important place of the cathedral on the Rhine.

A view of the Heidelberg castle was next shown, upon which the castle was put on fire in the 13th century, and is celebrated for its wonderful architectural beauty. The castle was put on fire in the 13th century, and is celebrated for its wonderful architectural beauty.

In the next view the architectural firm of Coolidge & Carlidge was somewhat instrumental in getting Professor Despredelle for the architectural practice and the trend of lo-...
