THE TECH

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

To compete for positions on the staff. It is onto the Tech team Saturday at New Hampshire State College put the quality of THE TECH would be "class criticism" as the editors have to any address. We think that some office of the "Mass. Tech Official Tremont Theatre. Special rates to a deal of this copy that they have been see what we have to contend with. They or anyone else who desires to it will be imperative for every right, instructing Staff have been in the purpose of holding the afcresaidt venture. We understand that several of the members of the English Department have in the hands of a "THE TECH" for the purpose of holding the aforasined newspaper up to ridicule. It seems to us that they might be up to better business and have better use for these names than to be a respecting newspaper. If these men really want something that is worth criticizing let them come around to THE TECH office any evening and see some of the copy that comes in and is edited by the right editor. We do not know who these instructors are, but we can guess and guess right, and the office will be open to them or anyone else who desires to see what we have to contend with. And to make the matter worse, a good deal of this copy that they have been criticizing so severely comes from the members of the Freshman class, whom they are themselves trying to teach the rudiments of the English language. They also have on hand some "Genes of literature from the office of the "Mass. Tech Official Press Agot," copies of which we would be glad to sell for free of charge to any group. We think that some of these would make fine material for "descriptive writing" as the editors have judged them too poor for "THE TECH." We would suggest to the instructors a good way to improve the quality of THE TECH would be to send some of their best men out to compete for positions on the staff.

Where is the Freshman Pipe Committee?

MRS. MACLAURIN WILL BE MATRON AT DANCE.

Also Mrs. Cole and Mrs. Pender—Tickets $1.00—Now On Sale.

The committee in charge of the Bat- talion Hop to be held February 16th, in Horticultural Hall, announced the following matrons for the affair: Mrs. Richard C. Maclaurin, Mrs. Edwin T. Cole and Mrs. Harold Pender. Already a number of upperclassmen have indicated their intention to attend the dance, which is the fourth annual held by the cadet corps. It is expected that a large number of Freshmen will go, and the selection of hall and matrons leaves no doubt about the desirability of their tickets. Tickets are now on sale by officers of the Battalion and will be distributed among the Freshman non-commissioned officers at the Wednesday drill. They are $1 per person, and as announced it is planned to include refreshments at this price.

COMMUNICATION.

(We invite communications from all men in the Institute on important matters. We take no responsibility for their sentiments and do not agree to print any that may come in, whether they are signed or not.)

To the Editor of THE TECH:

Dear Sir:—I wish to prevail upon you to publish this communication as I believe its subject is of vital importance to the student body, for it certainly is to Technique, 1912. The subject is just this: the financial responsibility of some of our organizations is evidently not realized by their members. The K. S. Society, the Architectural Society, the Exeter Club, the Harvard Club, the New York Club and the Aero Club have been charged by Mr. Hall, Treasurer Technique, 1912, for their liabilities since May 1st, 1911, to the extent of $4,500. We now have a financial committee whose purpose is to see that all activities under its jurisdiction meet their liabilities promptly, and I hope that their attitude toward such practices will be one of disapproval. I hope that their attitude toward such practices will be one of disapproval. We now have a financial committee whose purpose is to see that all activities under its jurisdiction meet their liabilities promptly, and I hope that in the near future that societies and clubs at the Institute will be able to present an appeal to the members of those societies for fair and square business treatment. We now have a financial committee whose purpose is to see that all activities under its jurisdiction meet their liabilities promptly, and I hope that in the near future that societies and clubs at the Institute will be able to present an appeal to the members of those societies for fair and square business treatment.

Very truly yours,

(Signed) Donald B. Bent, Treasurer Technique, 1912.

JUNIOR SPECIAL.

It is planned to run several of the back Political Economy Examinations in the Thursday issue, and therefore it will be imperative for every member of the Junior Class to purchase one.

AN OUNCE OF PREVENTION.

The Adolph S. Lunin scientific system of Turkish Baths is the only natural and hygienic way to prevent that oncoming cold. Ever these nearly twenty years ago under the Tremont Theatre. Special rates to a party of six, five dollars.

TECH TEAM LOSSES.

Fast Team and Large Floor Too Much for Institute Men.

New Hampshire State College put it onto the Tech team Saturday at Durham by a score of 58 to 12. The New Hampshire floor is very large.
