RELAY TEAM PICKED TO RUN DARTMOUTH

Institute to Be Represented by One of the Fastest Squads in the B. A. A. Meet.

Saturday evening the classical B. A. A. meet will be held in Mechanics' Hall. This meeting is to institute athletics, what the I. C. C. A. A. meet is in the spring to outdoor sports, and college men from all over the country will be on hand to compete. It is a recognized fact by the sport fans in the vicinity that so better variety of clean sport can be seen than will be shown out the spectacles in the fall Saturday.

Tech will be represented at the meet with one of the fastest relay teams the "State" has ever had, and for present purposes it is just as if the Dartmouth team, against whom we are booked, will have a hard job to lead us. Such has been the care of the committee and arrangements can be made to see that the present plans are carried out. Although not showing well in the first trials, has "come back" and is just as good any time now. The exhibition at 2 p.m., when he broke the already low record of the indoor quarter-mile, showed that he is not to be left out of the calculations, and there is no reason why he will not be up there on the larger track in Mechanics' Hall. There is at present some doubt as to whether Benson or Thompson will run, but either one is good, and it does not seem as if a decision deciding one or the other will make much difference.

Little is known of the merits of the individuals on the Green team, but Tech Hillman of the New Hampshire institution will send a fine delegation of men and there is no reason why the Techies will not be one of the events of the evening.

The team as given out will be composed of Captain Steinert, Dolan, and O'Connell.

Several other Tech men will compete in the invitation events, among whom will be Captain Dyllis, who is looked upon as a possibility.

INSTITUTE COMMITTEE ADOPTS TECH BUTTON

Committee Appointed to Make Plans for All-Undergraduate Dinner.

At the regular meeting of the Institute Committee, held yesterday afternoon, Major Cole addressed the body and read a long, better declaring the fact that Technology was not held to higher esteem in the outside world, and he suggested that the committee adopt a silk button bearing the Tech colors as the official button of the Institute. After a discussion the committee adopted a resolution which made the button official. These buttons will be ordered through the librarian and thus eliminate a confusion.

In the market by some of our enterprising dealers in Technology emblems, the cost will be in the vicinity of fifteen cents per.

Babson, '98, spoke on the application of commercial interests more than ever to educational conditions, before a good sized audience.

The attention of all Freshmen is directed to the book, vice E. E. Corblett, 1913, resigned.

The committee voted to express a vote of thanks to the Faculty, through the Secretary, for their kindness in extending the Junior Week vacation a half day, in order that Tech Show might arrange for additional dates for their performances.

It was voted to appoint a committee to look into the practicability of holding an all-undergraduate dinner, to which all undergraduates and faculty will be invited, and at which the speakers will be Techies.

It was found to be allowable for men to wear a "T" on pipes, provided they have won a letter in athletics. The committee voted to appropriate $600 for the benefit of the Athletic Association, as to whether Benson or Thompson will run, but either one is good, and it does not seem as if a decision deciding one or the other will make much difference.

Little is known of the merits of the individuals on the Green team, but Tech Hillman of the New Hampshire institution will send a fine delegation of men and there is no reason why the Techies will not be one of the events of the evening.

The team as given out will be composed of Captain Steinert, Dolan, and O'Connell.

Several other Tech men will compete in the invitation events, among whom will be Captain Dyllis, who is looked upon as a possibility.

CANCEIt DANCE ORDERS

Yesterday's meeting of the offices of the Battalion resulted in a majority declaring that it would be advisable to cancel the dance orders already filled cut and to start afresh when the order appeared in the paper. This was decided after the men had acknowledged that their act had been hasty. The order will be published in Friday's issue of THE TECH.

This week other Orders, were heard from several men on the number of tickets sold to date, and it was found that many more must be sold in the course of a week in order to make the date practical. The decision was whether the officers should do business in the office, or the uniform being considered too plain at present. It was finally decided that there was no use to do so.

With a dual meet between Harvard and Yale at New Haven, February 19, wrestling will be inaugurated as a prominent winter sport at Harvard with the approval of the Athletic Committee.

MR. BABSON LECTURES

TRADE STATISTICS

In Illustrated Lecture He Explains the Necessity of Broad Outlook.

At the meeting of the Society of Arts last evening, over which Dr. Macaulay presided, Mr. Henry Babson, '88, spoke on the application of systematic statistics to business conditions, before a good sized audience composed largely of business men.

Mr. Babson began his lecture by pointing out that Boston business men are generally unable to realize the magnitude of commercial interests more than ever to educational conditions, before a good sized audience.

Besides keeping track of commercial conditions in the country at large, the Boston business man must pay particular attention to the state of affairs in the city of New York, for New York is the great jobbing center of the country, a point of proportion of the business of the country is transacted there. No man should sell when he sees that the different lines of business. He does not expect to sell his goods to those engaged in the same kind of business as himself, but rather to those in other lines. Trade conditions are generally the same, but not, however, in that there are a number of special fields of the state of the industrial world.

The state of the labor market is being followed by the state of business, stagnation and emigration. In this con

FINESMARCH CLASS PIPES

Committee Will Be in Union To-day to Receive Orders.

The attention of all Freshmen is called to the following: Today is the last day for the placing of orders for high grade pipes. The men in the Union between one and two with samples and prices of the various styles of pipes. Several members of the class have been shown, up to give their orders.

H. E. Hadley, A. S. McRrissor and W. H. Beach, all regular members of the committee will be in the Union at noon. Having won a dollar, and several copies of the remainder of the lyrics have already gotten money. The men to wear a "T" on pipes, provided they have won a letter in athletics. The committee voted to appropriate $600 for the benefit of the Athletic Association.

S. H. Bailey, '99, spoke on the application of commercial interests more than ever to educational conditions, before a good sized audience composed largely of business men.
