that the right to have class pipes be
taken away from the Freshmen until
they reach the year in which all men
have them.

RESPONSIBILITIES
AND MANAGERS.

The basketball game with Dart
mouth which THE TECH announced
was to have been played last Sat-
urday was called off sometime during
the week. We would not have wasted
our valuable space in thus misinform-
ing the public had the basketball
manager, or any of his cohorts, let us
know that a misfortune had
occurred.

Lack of competency on the part
of team managers is an invidious
thing; it works damage both to the
team and the Institute. We believe it is
the duty of managers to inform THE
TECH of events which its reporters
are unable to determine, and the pub-
licity the public had the basketball
manager, or any of his cohorts, let us
know that a misfortune had
occurred.
