The hockey team is assisted of a good, hard game Friday night, when they meet the fast M. A. C. team in the same risk in which they beat Amherst last Saturday. The Aggies have not played a very consistent game, but have shown flashes of very brilliant work. They held Yale to 8 to 6 and won the game 8 to 6. Two games ago they won from Trinity by a score of 8 to 1.

Comparing the Aggies' work in the Yale game seems to prove the Tech team a little advantage over the M. A. C. was not able to score on Yale, while Tech got two goals, but on the other hand Yale ran up a larger score in the Tech game being played in their rink will be somewhat in their favor. The Tech is very short and he players cannot use the longer faces of the rink. The ice is also very rough and not like the smooth surface of the Arena.

Peabody, Amundson and Ackerman are the stars of the M. A. C. team. Ackerman is a very clever tendon and his work has done a lot towards holding down the scores of the opposing teams.
