SKATING in the keen air—the companionship of a pipe—the measure of a tobacco such as Velvet!

Velvet is the best leaf—aged over two years in the warehouse—a slow, mild transformation from harsh leaf to a mellow smoking tobacco. Time gradually mellow it—matures the good quality of the leaf—smokes annual—good—wonderfully good! Such a tobacco takes time to perfect—extreme care withal, but this is the smoke we all want—so why not?

At all dealers.

BEAUX ARTS PRIZE

PRELIMINARY ESQUISE ESQUISE

COMPETITION TODAY

Is Held at Institute—Many Entries.

At promptly 8 o'clock this morning about twenty-five architects from the fourth and fifth year classes will start on the first preliminary competition for the celebrated Paris prize. This prize is awarded by the Society of Beaux Arts Architects. The winner of the prize will receive two and a half years of tuition at the Ecole de Beaux Arts, Paris, in addition to a stipend of one thousand dollars per year while studying. It is stipulated that he must spend not less than two and a half years in Europe and do a required amount of architectural work. To enter this competition the only requirement is that the applicant be not less than twenty-seven years old and an American citizen. The competition is held at various points in the United States, and last year about six hundred of these "esquisse" applications were submitted.

The first preliminary competition which takes place today is to be off for twelve hours duration, and for applicants in the vicinity of Boston will be held in room 43 Pierce Building. The finished renderings are sent on to a committee which considers them, their choice being manifested in the selection of five winners and two alternates.

The second preliminary competition takes place in New York. In addition to the five winners in the first preliminary competition fifteen previously qualified applicants who have been exempted from the previous competition are allowed to participate in this second test.

As a result of the second preliminary competition five winners and two alternates are returned. The five alternates are really the sixth and seventh men, who may replace any of the first five men in case of failure to be present at the final competition. The five men placed as winners then enter the final competition. The winner of this competition is the winner of the prize. The next four men, if their designs are approved as having the required amount of architectural merit, are awarded one hundred dollars each.

GAME CANCELLED.

The strong Sophomore basketball team originally had a game scheduled with the Allen School at West Newton for tonight. Sometime during the week the manager of the High School team communicated with the Sophomore manager and among other things said the following: "It would be a satisfaction of the Innocents for us to play the game with you." Allen School held down to the second team men as a result of the reputation for fast playing which the latter have gained.

WRESTLING MEET.

(Continued from Page 2)

Sixty men at the Class meeting yesterday, Seniors, you should be ashamed of yourself. The meeting was well advertised and it is you who advertised it. The school was well advertised and it is you who advertised it. The people who want you to succeed, they will succeed. But for this two things are necessary—one, that a live and active spirit of sport shall be entered in the New England championships. The win-
