The smoke of the Architectural Engineering Society which is to be held on Friday evening, February 23rd, in 42 Pierce, should be one of the most interesting and instructive as an essential part of the management, and no Course IV man who is able to attend will be sorry that he has done so.

Together with the interest and value of the talk which is to be given will be the pleasure of meeting and discussing practical subjects with a man who is now in the thick of his profession. Mr. John D. V. Beekman, who graduated from the Institute in 1898, and who is now with Whidden & Co., contractors, of Boston, has consented to speak on "The Relation of the Architectural Engineering to the Engineering Profession." This subject is one of paramount value to the engineering profession. Mr. John D. V. Beekman, although he had not run on a varsity team, has done excellent work for the club, and was captain of the 1913 team last year. He is now history editor of Technic.

Peaselee has been out with the hares and hounds on every run, and has shown cross-country ability.

This rehearsal will commence just as soon as the weather will permit and get dry. The first run will probably be held from the Gym. It is urged that everybody who is out and everywhere the option 2 men, and they can be seen at any time in the afternoon in Pierce.

WILLIAM H. MCCUTCHEON.

Record Membership Attained—Outfitting Completed.

The Wireless Club, whose station is in one of the most famous musical 75,000-watt transmitters on the air, has now installed the Rice transformer, given to them anonymously, and the receiving equipment with it, and is able to be received by any young architect, and much will doubtless be said that will be an advantage to every man.

Tickets are now being sold by sev- eral of the option 2 men, and they can be seen at any time in the afternoon in Pierce.
