MANY CANDIDATES OUT FOR TECH SHOW

Students Show Much Enthusiasm at Monster Meeting in Union.

Two hundred men have reported during the week for the trials for the cast and chorus of the Tech Show, "Castles in Spain." Coach Anger was present and made a preliminary selection of candidates. Great enthusiasm was shown by the men, and there were more than twenty candidates for some of the principal parts.

Stage Manager Thayer addressed the men and described briefly the general criteria adopted by the management for choosing candidates. They must have three characteristics: good appearance, voice and personality. The appearance depends largely upon size, expression and general manner. A good voice is quite essential in a play like "Castles in Spain," which is really a musical comedy, several of the parts requiring a certain personality, and this must be considered in making the selection of candidates.

Wellesley J. Littleton, co-author of the show, read the parts describing the ideas of the authors in regard to them and gave his conception of the requirements for each.

There were about one hundred men who signed up as intending to compete for the parts which were distributed as follows: Mr. Philips 5, Mrs. Philips 5, Rand 5, Smith 6, Jones 6, Hoyt 7, Phyllis 9, Phyllis 12, Lobbi 2, Bissell 5, Ribaldo 5, Florentta 5, Don Juan 16, Rodriguez, Jesper, Pedro, 3.

Among the former show men who are out this year are: K. W. Farnese, Hastings, Byron, Dole, Holbrook, De Florio, Moore, Rubb, Rollman,Archard, Russell, Crowell, Salisbury, and Hilton.

Directly after the men had signed up for the parts they adjourned to the living room of the Union, where singing trials were held.

COLLEGE FRATERNITIES.

(Continued from Page 2.)

"If a local chapter gets into bad ways the headquarters immediately bring pressure to bear on it. There is nothing alarming to that to keep up the standards of local organizations. The claim is made that the local headquarters takes the place of college loyalty and college spirit. Personally I have never found this to be the case to any great extent. My own experience is that the most loyal and interesting Alumni are to be found in the fraternity men."

COMMUNICATION.

(Continued from Page 3.)

The plan of the students is, of course, laborious, and it is not what it was formed for. The sub-committees are practically powerless and are simply figureheads. The House Committee should have charge of the new Victrola and convert it into something more than a coat rack. It has been suggested that the follows ship together and hire an express team to ship the machine to the Bursar's house. Such a scheme would probably, at least, keep the works in running order. If the Bursar is afraid to trust the House Committee, or if he doubts the ability and discretion of its chairman, then, indeed, it is time for a change.

As a remedy of the present sad state of affairs we suggest that Dean Burton, as a man who is not in touch with the students, be made chairman of the Union Committee. We suggest that the Bursar, as financial manager, be a member of that committee. We have never found this to be the case to any great extent. My own experience is that the most loyal and interesting Alumni are to be found in the fraternity men."
