FRESHMAN TEAM
DEFEATS BROOKLINE
New Rifle Team Starts Promising Season by Winning Its Initial Match.

Yesterday afternoon the newly organized freshman rifle team easily defeated that of the Brockton High School by the score of 311 to 286. Each squad consisted of four men, each of whom fired ten shots, standing at a one-and-a-half inch bullseye, 21-yard range. All of the Freshmen made good scores. S. P. Rudolph, the president of the club, made the highest mark, with 25. Chandler, his opponent, performed the best for Brockton, with 20 to his credit.

The winning of this match from the crack High School team, which up to this time has been defeated only twice out of ten contests, starts the lower classmen on a promising career. Every member has had not only the experience in shooting, Williams shot for the Massachusetts State squad last year, and Fussenden, Haslam and Rudolph belonged to the Brockton team in their senior year.

The summary:
1015 seconds, Fussenden, 72; Haslam, 77; Williams, 77; Total, 311.
Brookline High: Jenks, 67; Hower, 69; Stevens, 69; Chandler, 56. Total: 325.

CATHOLIC CLUB WILL
HOLD MEETING TODAY

Feature to Be Talk by Judge Murray of Municipal Court Circuit.

Wednesday evening, March 6, the Catholic Club will meet upstairs in the Union at 6 P. M. Judge Murray, who will speak, has been a prestigious figure in the Municipal Court Circuit, sitting in judgment over both civil and criminal cases. Apart from his connection with the bench, those who have followed the history of the Republican party in the State of Massachusetts, and even in its national conventions, will recognize in the present Judge the orator, Michael J. Murray, who, once and again, swept the State with his brilliant speeches. As a speaker at club talks and luncheons, Judge Murray is in great demand, and having failed the year before, the club this year is indeed fortunate in securing his presence at its next meeting.

The dance committee will also bring in its report at this meeting. As the dance has proved the most successful since the establishment of the committee, both from a social and financial point of view, the details of the committee's accomplishments should be of interest to every member. A full attendance would be one way in which the members could show their appreciation of the committee's work. Certainly a large number should be present as a fitting tribute to the renowned speaker.

PROM COMMITTEE.

Arrangements for the Junior Prom are still being carried out as rapidly as possible, and many of the numerous necessary details have already been attended to. The committee will hold another meeting this afternoon at 4 o'clock, at the usual place.

FIELD OPENS.

The field in Brookline will be opened for the spring season on March 15th. Everything will be in good condition and the teams can get right to work. The outdoor track season will probably start very soon, and if we are to win these championships this year the earlier we get to work training the more chance we will have.
