1914 FOOTBALL PICTURE.

Members of Team Be at Notman’s Promptly at 1:15 Today.

Arrangements have been made for photographing the 1914 football team at 1:15 P.M. today. The photographer will be Notman, of Park street. The men of the team are to be in their football costumes, and in particular, their jerseys. The picture will include the following 1914 men, who will report promptly at the above place and time: Stirko, McClintiepe, Hill, Duffield, Brown, Hardy, Ruoff, Thompson, Morgan, Mitchell, Williams, Merrill, Rogers, Fox, Van Etten and Benjamin.

T. C. A. SOCIAL.

Saturday night, March 23, the Christian Association is to have another social, to which all members are invited, similar to the one held in the Union last month. This date is three weeks from tonight, and the selection is given thus far said so everyone will have a fair chance to know about it and to keep the date open.

President Henry Lawrence Southwick of Emerson College will give the Sheridan’s play, “The Rivals,” famed for its character, Mrs. Malaprop.

EGGS AND EGGS.

(Continued from Page 1.)

other rather special use is to keep sponges—they dry up if left in an ordinary atmosphere, and are sold by weight, wherefore the cold storage. There were lots of apples, pears and peaches that were kept at 65 or 65 degrees.

Next the party went to the egg house, which is empty now, though there have been 34,210,000 doz.

Eggs there this year. In that room the temperature is kept at 40 degrees. and besides the necessity for a constant low temperature, the humidity is most important. They will rot if it gets dry and mold if it gets too damp.

Finally they went through the power plant, where there is a 10-ton compressor in use in the ammonia plant, and there is at the same time work going on preparatory to the installation of a thousand-ton compressor, designed by their own Chief Engineer and being built in Providence. The forms for the concrete are in place and suspended from the staging are the bolts that will fasten the machine down, which will be buried in the liquid when it is poured, so it will not have to be dug away later. To mention a few statistics, the storehouses are 8 and 10 stories high and have 50 electric elevators. The company generates their own power by two Westinghouse-Dunham 500-turbine generators delivering current at 400 volts. Steam is supplied by a battery of four Scotch boilers and ground is cleared for a group of Sterling.

Instructor: What is a logarithm?

Student: Why, a paper rhythm is a stolen song.

We ought to have a classy hockey team next year. Aren’t better than this year’s.

ONE PIECE HAMMER Metal New Model

ITHACA

If you are a metal hammer user you will find it very difficult and impossible to find a metal hammer that does not break. Nor can the ordinary hammer be used for driving nails or for any purpose. I have an hammer that can be used for all purposes. It is made of bronze and is a metal hammer. It can be used for driving nails and will work just as well as an ordinary metal hammer. I make it of a piece and in a short time you will be able to buy a hammer that is made of bronze and is a metal hammer. If you have a metal hammer you can use it on all kinds of work. If you want a hammer for driving nails or for any other purpose, I make it of a piece and in a short time you will be able to buy a hammer that is made of bronze and is a metal hammer.
