CROSS-COUNTRY RACE

Sophs Seem to Have Best

Chance, But Freshmen Have

Many Men Out.

Now that the undergraduate men have

again started running, the num-

ber of the two lower classes will soon

be speculative as to the probable

outcome of their struggle. The Fresh-

men-Sophomore race is usually held

some time in the first part of April,

coming a week after the Inter-Course

race and circles the cross-country

season. The runners are sent over

the Tech course, starting at Highland

and ending with a lap around the

Field and Sherlock, a run of about four

and a quarter miles.

It must be admitted that the pros-

pects for the Poshmen are far

superiorly bright at present. The

Sophomores have four best men who will

run for them: Nye, Shedd, Lee and

Kearney. It is not likely that these

three will be defeated by one

Newcomer, if any is present. And

the Poshmen have turned out thus early,

and with steady practice should round into a good team of which their class

will not be ashamed when the final test
comes.
