Rehearsals Every Day This Week—Principals and Chorus the Best Ever.

Rapid progress is now being made in the School Department of Tech Show, 1912. Rehearsals are being held every day, and Coach Eugene Sanger has made the number of competitors this year larger than ever before. At present there are about 60 men out for the chorus, and the final cut will reduce that number to 35. The principals rehearsed last Saturday afternoon and rehearsals will be held every day this week.

Work in the other two departments is also progressing. Four-page pamphlets have been sent out by the Business Department to Smith and Amherst College, and it is expected that by this means larger audiences will be held at Northampton.

Work in the Business Department has been so feverish this year that it has been necessary to select three Freshmen assistants instead of two, and Professor J. W. Venable, Manager Woebbing has recently been in New York and has himself arranged for giving a performance in that city. To this time, however, no definite arrangements have been made.
