THE TECH, BOSTON, MASS., MARCH 12, 1912

BIOLOGISTS SOON TO HEAR DR. KEITH

Unexplained Typhoid to Be the Subject—Speaker Has Had Much Experience.

The Biological Society will hold its next meeting on Wednesday, March 13, in 28 Pierce, at 4:10 P.M. The speakers will be addressed by Dr. W. C. Keith, who will speak on "Typhoid Fever: Apparently Unexplained Cases." Dr. Keith is at present a medical inspector for the State Board of Health. The subject upon which he is to speak is somewhat unusual, and as Dr. Keith is a man of practical experience it is expected that the meeting will be of particular interest to all who are interested in the subject of typhoid fever.

COMMUNICATION.

(We invite communications from all men in the Institute, whatever subjects may be under discussion and do not agree to print any that we may consider improper.)

To the Editor of The Tech:

During the past year the Prom Committee made a few temporary posters to use on bulletin boards until the close of the school year. After remaining in place for a few days, several individual with very low tastes and even lower principles, removed them from the boards.

The posters were not very artistic, but they were liked by many. So, the Prom Committee is simply a small enough to carry on this scheme. The same members of the Prom Committee are doing it this year.

The posters were all handed out in Saturday, and will appear shortly. The designers have put much time and services in competition to help the committee in securing pleasant announcement cards. It is expected that the meeting will be of great interest to all who are interested in the subject.

Orator and Debate.

The success of the class in argumentation and debate has been so pronounced that certain of the men are contemplating the formation of a regular debating society at the school with the ultimate idea in mind of applying for admission to the Intercollegiate Debating Association. Debate and oratory are extreme, yet valuable training for any man to possess; the quality of mind, speech and general deportment are all improved by them, and it is unnecessary to dwell upon the use of these three characteristics in the world. They possess; the quality of mind, speech and deportment are too obvious.

There may be an idea in the minds of your class. H. D. Peck, Chairman, 1912 Prom Committee.

R. F. Barratt, 1914.

M. B. Lewis, 1914.

C. A. Cary, 1912.

L. H. Lemeliner, 1913.

A. H. Waitt, 1914.
