OLYMPIC COMMITTEE.

To Take No Men On Team Because of Any Money Received.

The American Olympic Committee has taken a stand that will have a very good effect on amateur athletics in this country, when they decided at their last meeting that they would accept no donations whatever that might be turned with a proviso facted to them, that they should be used to pay the expenses of some of our people on the olympic team.

The matter was brought up through the action of a Western university and a prominent athletic club in the same section, in offering moneys to be used for certain men whom they wished on the team. The action of the committee was prompt and effective and it will go a long way toward proves that the 1914 Olympic games will be still more glorious than the last.

DR. GIFFORD TODAY.

Today the Christian Association has as its speaker at the noon meeting Dr. O. P. Gifford, who was one of the most popular speakers of the fall term. Today he spoke on a subject that has recently become of pressing importance in many of the industries of the world, and by using which many companies are making their profits, “Wealth from Waste.” Dr. Gifford’s subject last term had been changed to be more popular than has his present one, and everyone who heard him seemed to forget he was still talking of it as producing one of the chief talks that have been given in the series. Then it was “The City Without a Church.” After the speaker’s previous success the Association expects a record crowd.
