ART EXHIBITS HELD IN PIERCE BUILDING

Problem Work of Students Display Drawings of Excellence

A feature of the Institute which seems to have almost entirely escaped the notice of the students is the Architectural exhibition in the quarters of the Department of Architecture in Pierce Building. The exhibition room is on the fourth floor.

In this room is displayed the work of the Course IV men in design on the completion of the assigned problem to that line. Occasionally there is also exhibited the work of the class in pen and pencil, a class conducted by the noted Mr. D. A. Greggs. The fundamental purpose of these exhibits is for the criticism of Professor Draperide Roloki, professor of design, attended by the management. The renderings are finally graded by the award of mentions.

While primarily for the benefit of the students of architecture, the room is open to visitors. The visitors for the first time are delighted with the work which is usually of a high order consistent with the professional and artistic standing of the departmen. The result is that an occasional visit becomes an enjoyable treat. The current exhibition is proving of great interest.

NAUGHT BUT KNOTS.

Owing to the pressure of work, the review work of the class in Knots has been delayed. Major Cole announces that this work will be resumed today. Sessions of this line, the previous arranged monthly meetings will be abandoned in favor of the work of the meetings, to be held as long as may be desirable. The sessions will meet as follows: Monday, 4 to 5 P.M.; Tuesday, 10 A.M. to 11 A.M. and 11:45 A.M.; Friday, 11 to 11:45 A.M., and 5 to 5 P.M.

The old members may attend any of the sections as convenient, and new men may take the course if desired.

SEASON'S TRACK PLANS

(Continued from Page 2.)

The inter-course cross-country will be held on the thirteenth of March. A number of meets have been arranged for the Freshmen and Sophomores, with some of the best preparatory schools of the State. The most important of all will be the match between the class teams of Tech with the respective class teams of Harvard.

At Needham the Hare and Hounds Club did need bocca, not meacaks.

Hurry up, Crew, with your shell, the race is leaving the river.

The All-New England basketball team as chosen by a prominent athletic is made up of five Wesleyan men.

The Canadians played a tie game Saturday night with the hockey team. It was the best ever seen.

A hundred and twenty million pounds of copper have been produced by the mines of the United States, distributed through eight States.

The Harvard crew commenced its spring season with forty-eight men at practice.

Aluminium substituted for steel on various parts of the aero-wireless apparatus, now being tested at the army's aerodrome at Augusta, Ga., has reduced the weight of the outfit approximately twenty pounds.

DON'T PAY FANCY PRICES FOR "STORE CLOTHES"

Everything looks good, taste good, is good—exactly like Fatima Cigarettes.

With each package of Fatima you get a pennant coupon, 25 of which entitles you to a package of Fatima 25.

So good to get back home.

Don't Pay Fancy Prices For "Store Clothes"

Get a suit that was built for you.

Not one that looks as if it were wished on you.

My prices are fair and well within your reach.

My clothes bear the stamp of style.

I furnish a perfect fit and guarantee your product.

Come down this afternoon and see.
