THETECH  SATURDAY, MARCH 23, 1912

COMMUNICATION.

(to every Undergraduate).

Back in the good old days of nine-teen hundred and two, we had the re-nowned industrial workers who produc-ed Tesh in the class of 1916 were more green Freshmen, there was pulled off in the little room over the mechanical laboratories off Carl-son street (then the only Union Tech men knew), a stunt which will go down in history as epoch-making.

The class of 1916 inaugurated a Hook Night in place of the usual Evening of the class, stripped. The funniest filled the old Union with the largest crowd it had ever seen; not only Freshmen, but sophomores, juniors in and "profs" and instructors were there galore. The room was filled with smoke, jollity and noise—of it—and the noise was of a noble nature.

Hook Nights have come and gone since that date, but none has reached the popularity of that first one. All Hook-writers has told us these later ones had not had enough stunts, not enough noise—that they had lacked the true Hockenian structure.

The Union Entertainment Committee has promised a Hook Night for Friday, April twelfth, and it has de-cided to leave one grand evening which shall surpass all predecessors. Everyone is expected to arrive, everyone is expected to make a real red carpet at the show for the three prize winners, and they had to toss up a coin to settle the awards.

The man who won first prize is now one of the most prominent mining engineers in Denver and the south-west, a great posses-sing pupil, who captured the second prize, is now a prosperous man. How come out and join us April 12. And even you may win a wife, or a lucky strike in the mining world.

Place your entry with F. C. Weiss, C. F. Hovey, '12, and you have a fighting chance of being one of the three prize winners.

Dr. Mills gave Forceful Talk at MIT. A. C. Hawgood, 91. 

Address in Union.

The American Brass Company

C. F. Hovey & Co.

Men's Furnishings

Ready Made Shirts
