But what is fair-minded criticism? It is the intention to make THE TECH nothing but the mirror of the men. We desire to give the students a platform on which to express their ideas, and we shall do our best to keep the criticism in this paper fair-minded. It is not our intention to make THE TECH an organ of the student body. The students are given a voice, but it is the intention of the editors to see that this voice is not only fair-minded but also that it is used in the best interests of the college spirit.

The second requisite is the power of maintaining a good feeling between the staff and students. Too often articles creep into the columns of a newspaper which are distinctly malicious in their tone and are unsoundly based. The very word "criticism" should not appear in the columns of a college newspaper. It is the intention of the editors to see that there is no such thing as criticism in THE TECH.

DOUBLE MEET FOR TWO LOWER CLASSES

Track and Cross-Country Men to Compete Next Saturday Afternoon.

Saturday will furnish two extremely interesting athletic struggles between the two lower classes: the cross-country run from Highland and the track meet at the Field. During the last day or so the plans for the events of the latter have been somewhat changed.

The two-mile run has been struck off the program, as all the distance men of the two classes will be entered in the cross-country event, and a one-mile, which will please many of the runners, has been substituted.

According to present indications the pole vault and the broad jump will not be well supported. Most of the men entered for the pole vault are Freshmen, and it has been promised that they need not fear that this lack of entries will cause its removal from the meet.

Probably there is a little more interest centered on the festival cross-country run than on the track events. There has been some talk of linking the two, and, adding a certain number of points to the total track score of the winner of the cross-country race, the question of coupling it this way or as a separate meet has been left to the judgment of two or three teams to decide.

The starting point of the season, the chances of the Freshmen have been steadily brightening. The great deficiency of the Sophomore men has been steadily being made up in the past few days by the decision of a few of the good Sophomore men, to accompany the Civils on their trip to New York, which will keep them out of the race. The lower class now seems to have a little more than an even chance of coming out victorious in the big run Saturday.

HOCK NIGHT

The committee in charge of Hock Night entertainment reports that only a few men have volunteered for tickets. One or two men have agreed to box, and others to sing. The committee is making efforts to secure a good entertainment, and feels that it is up to the men to come forth and show what they can do. Beside the fun which the men can get out of the race, the lower class now seems to have a little more than an even chance of coming out victorious in the big run Saturday.

Don't Pay Fancy Prices for "Store Clothes"

Get a suit that was built for you

Not one that looks as if it were piled on you

My prices are fair and well within your reach

My tailor bears the stamp of style

I furnish a perfect self and guarantee my product

Come down this afternoon and see
