FRESHMAN TEAM TO
MEET ENGLISH HIGH

Match Will Be Played on Franklin Field Today—Infidlers
Greatly Improved.

The Freshman baseball team will play the English High nine this after-
noon, at 3 o'clock, if the weather per-
mits. The members will meet in the Dunta at 1 o'clock, and go from there
out to Franklin Field, the only place
available for the game.

The team has not yet been picked
but the men will probably fill the follow-
ing places:
Hall, pitcher, catchers.
McDavit, Pulou, first base.
Scoully, second base.
Lewis, Caffrey, Howlett, short-stop.
Franks, third base.
Moran, McNulty, Thomas, Rey,
dugouts.
Bauer, McMahon, pitchers.

There was some good practice yester-
day in spite of the rain, and the in-
field showed a decided improvement.
English High has a strong team, and
this game, together with the practice
next week, will put the Freshmen in
good shape for the encounter with
Winchester High April 26.

ARCHITECTS' MEETING.

(Continued from Page 1, Col. 2.)
coral cervices of the building, and to
use a search light in the upper floors.

Considerable attention must be paid to facilities for the handling and use of
drawings. Shop drawings turn from the
contractors of the trim work, the frame, the stair and street details,
terra cotta, copper, plumbing, heating, and the work must be filed so
as to be readily accessible. There are
about four thousand drawings to cata-
logize and file.

Mr. Shaffer said that it was his work
to consult with the structural engineer and
the architectural engineer as presumably
correct, and he had to see whether they
were right and corresponded with each other and with the schemes
as a whole, and any final mistake was
brought home to the contractor. The number of
changes in the contractor's plans so
far is considerable, and each of them necessitates a delay.

As an example of the costliness of
these delays, every week's delay in
the completion date of the building
meant a twelve thousand dollar loss
to the owner. The value of the land
under each column on the first floor an
to facilities for the handling and use of

IT won't leak

You should own a MOORE'S
BECAUSE
It can be carried anywhere, in
its own protective case. When
you step in the rain, put the cap
on the cap and the cap will take
the rain on it and the in-
terchangeable nib will not
be affected.

It is the simplest fountain pen to
fill. You cannot overshoot, just take off the cap
and have it ready to fill.

It is made of the most durable materials of
any fountain pen. It will remain in
first-class condition for years.

It is the cheapest fountain pen to fill. It costs
nothing but ink and electricity to keep it
in first-class condition.

It is the best fountain pen made.
