duPONT CUP COMPETITION

Contest Closes at End of Week and More Tryouts Wanted.

In view of the fact that practically nobody has come out for the duPont cup competition, the time will be extended through this week. Y. Coaches in the junior and senior years last year gave a large cap for the promotion of all-round trackmen, on which the winner's name is to be placed each year. The holder of the cup receives the largest number of points also will receive a small replica of the large cup.

A contest will be won by the man who makes the largest number of points. Points will be given in the Spring and one in the Fall. Each man is to compete in the classes, one a running event, one a jump and one a weight event. Each time or distance has a certain number of points, and the man who gets the largest number of points will be the champion.

This contest is open only to Freshman and Sophomore, thus eliminating from the contest the Fall and a smaller number this Spring. Coach Kamil will judge the points and give the result of this contest, if for nothing more than to show appreciation of Mr. duPont's interest in Tech's athletics.

RELAY PLACES CHOSEN.

Princeton was the losing school of the colleges in the drawings for places in the Intercollegiate relay championship at Franklin Field. The Tigers are entered in three events, the two-mile championship, the four-mile race, and the Freshman championship, and has secured the pole in each event.

Penn had about the worst luck and will be away from the inside in every race.

With which would have a good chance if a team was entered, as they have drawn three place in the mile event. Temple have entered in this race, among whom are the greatest competitors in the quarter-mile stakes that has ever been gathered together.

Princeton are the only college entered in the Freshman race and several of the larger institutions have not even entered in track meet.

An auxiliary branch of the United States Department of the Interior Life SAVING Service has been formed among the undergraduates of Cornell. It is planned to have a boat to protect the students and members of the branch to patrol Lake Cayuga during the best races.
