ANNUAL MEET NEXT SATURDAY AT PENNSY
Michigan, Dartmouth and Penn
Seem to Be Favorites in
Special Events.

Next Saturday will see collegiate athletics springing into public notice. On this date the University of Pennsylvania will hold its annual relay carnival, which will open a season of dual defeats; during May, all of which will be held as preliminaries to the New England and the big intercollegiate dashes. This large meet enables the various coaches to get an idea on the strength of the pros that will be sent later to the intercollegiate competitions. Moreover, it is expected that many men will come into notice with true Olympic style.

The list of events included not only the relay races for the championships in the one, two and four mile events, but also many special races, including the hundred and two hundred-yard dashes, the hulks and the field and weight events.

College stars from all over America have entered. Men from the University of Michigan have shown in no little way that they have a fine chance for many championships. Grass leading the list of men for the 220 and the quarter-mile. Hannan and Hembraig, star of Michigan, will make strong opposition to Jones and Sierman of Cornell. In the half and two-mile, respectively. Sargent in the high jump, and Koeble in the shot, have nearly equalled present record. Dartmouth will send a like class of men in Harmon, McIvor and Lutz for the mile; Olson and Willams for the shorter dash; Stroemer, pillen and Gardner for the 440 team.

In the weight and field events Dartmouth is well represented, Tilley and Sturton holding positions in the hammer throw. The former is present intercollegiate champion in this event, while the latter has won first place in various meets. The shot-put is well supported in Englishm, Leep and Eadres. Weight. Sturton, the pole vault, has been doing first class class recently, and Buck and Sturton have been doing first put in the broad jump. Dartmouth is further strengthened by the intercollegiate high jumper, Earle.

Cornell is strengthened by her two distance men, Bass and Jones. Pennsy has Mercer, the crack quarter-mile runner, and Harvard has entered a new man, Tower. In the hundred-yard dash, who promises to be a find.

CHEMICAL SOCIETY.

Mr. R. S. Weston to Talk On Filtration Problems.

The Chemical Society will hold its next meeting in the Union on Friday, April 26. The first of the evening will be devoted to a business meeting, and nominations for next year's Chemical Society's officers will be due at that time. It has been decided that five names are necessary for a nomination, all of which are to be handed in to Secretary P. B. Lawrence.

After the business meeting the members are fortunate enough to have the promise of an address by Mr. Robert S. Weston, who is an expert filtration engineer, and has had much experience along that branch of engineering. He will talk on "The Filtration of Pittsburgh Water Supply."

Refreshments will be served at the close of the evening.

MRS. STINSON.

(Continued from Page 1.)

Her death will be sincerely mourned by the four thousand Technology graduates scattered all over the world.

The burial services were held at her home yesterday.
