MEDFORD HIGH WINNER IN DRILL COMPETITION

Medford High School succeeded in winning the shield for the best team work in the annual interschool drill competition held in the Armory yesterday, under the auspices of the Freshman Battalion. G. Hansell received the gold medal as first prize for the best individual drill, and A. L. Baker of the First Battalion went through the parade, headed by Captain Hamilton. They were given the usual manual and simple marching orders and then sent out. Fourteen men marched on the drill, after the first elimination, as commanded by Captain Patricia. They went through the same maneuvers and were again dismissed. A final elimination was then made, after which the last, the rest having been eliminated by the judges. This time Lieutenant Monroe brought them through the manual of arms, and owing to a misunderstanding, a considerable amount of confusion and lack of precision arose.

The Freshman Battalion was then drawn up, and with the band playing, and the men at "present arms," those of the competitors walked in, the winners of the prizes. Three of them were uninformed alike, with bushy coats, white breeches and drum leggings. These were the men from Medford High; their leader was presented with a shield, and Major Cole pinned a gold medal on his breast. The fourth man was G. Hansell of Stonehenge, who received the second prize, and a silver medal. The Freshman Battalion went through the parade, after which the company was dismissed.

COURSE ENGINEERS

William J. Sayward, 1901, Will Speak Before Society.

The Architectural Engineering Society will hold a meeting tonight at 42 Pierce, while the officers of the society feel will be of great interest to the men.

Mr. William J. Sayward, Course 19, 1901, has consented to speak before the society on the subject of "The Contractor to Labor," and is exceptionally well fitted to give the men invaluable pointers on this subject from his own experience. He now holds the position of secretary in the Master Builders Association.

The meeting is called for 7.30 o'clock.

A Taft Club, consisting of over fifty members, has been started by the students of Tufts University. It has been suggested that the club take a "straw" vote of the college.

It is good to see Wilson back on the campus.

There will be a great meeting at Philadelphia on Saturday when the old men get together, if all goes well.

RAPIIY LEVI OF TEMPLE ISRAEL WILL SPEAK

At T. C. A. Meeting Tomorrow—His Subject is "The Function of Education."

The speaker at the Christian Association meeting this week will be Rabbi Levi, and his subject, "The Function of Education."

Rabbi Levi is the successor to Rabbi Fleischer of Temple-Israel on Commonwealth avenue, and is one of the best known leaders of the liberal Jews of America. He is a man with an important message, and one whose words, whether spoken in English or in the original tongue of both Christians and Jews. The T. C. A. is confident that he will have things to tell us that no one else could advise when he addresses us at the regular meeting at half-past one tomorrow in the Union.

ALUMNI FUND GROWS

Only two thousand short of the two hundred thousand dollar mark is the amount of the Technology Fund in the Union at the end of the first two weeks of subscriptions. According to the recent figure is $189,975, which is purely and simply the result of circulars without dispensation. This amount has been solicited. This fund, which is for the accomplishment of the great contention of both students and faculty, will be properly balanced with the call number and rating of every man, and the construction of the present for the construction for the construction with the intention of the institution will be able to have its internal arrangements on the subject of its proposed dignified and harmonious architecture.

LISTING OF STATIONS.

The Wireless Society has received the report from the list of the Technology Fund in the Union at the end of the first two weeks of subscriptions. The precise figure is $189,975, which is purely and simply the result of circulars without dispensation. This fund, which is for the accomplishment of the great contention of both students and faculty, will be properly balanced with the call number and rating of every man, and the construction of the present for the construction with the intention of the institution will be able to have its internal arrangements on the subject of its proposed dignified and harmonious architecture.

FRESHMEN VS. TUFTS SECOND AT MEDFORD

Improvement Shown in Past Week—But Two Positions Still Needed Strengthening.

Saturday the freshmen played the strong Tufts team second team at Medford. The freshmen showed much more strength against Winchester than they did in their first game, and hope to win Saturday. The team has been greatly strengthened in the infield, but are greatly in need of pitchers, and also a first baseman. At the present time Captain McDevitt, a pitcher, is filling the latter position. The manager wishes to call the attention of the freshman team to the weakness of the infield, and hope that men who have had experience in these positions will report soon. The chances of winning from the Sophos will be very slight.

Scully and McDevitt have showed well in previous games. At second and McDevitt at first. McGaffney has filled up a big hole in the short-stop position. Biddle and Hall both look the best behind the bat, and the field positions are well taken care of by Morse, Melnyte, Thomas and Roy, respectively.

The next game will be held on Friday, at the Field, at 1 o'clock. The next player will be held on Saturday, at the Field, at 1 o'clock.

TEEN TENNIS MEET SATURDAY.

Tech Team Meets Brown For the First Match of the Season.

On Saturday the tennis team will play in the first game of the season with Brown at Providence. The team is well balanced and although they have not had much practice this year, they should prove a match for the Brown men. The team consists of: F. D. Smith, W. F. Beckman, 15; C. H. Hendricks, 12; G. H. Haggard, 12, and C. R. Woodward, 12, T. S. Wood, 12, and R. A. Smiley, 12. The matches which have been establis...
