PRINTYPE OLIVER TYPEWRITER

The Only Writing Machine in the World That Successfully TYPE-WRITES PRINT.

17 Cents a Day!

The Printype Oliver Typewriter which has crowed ten years of typewriter progress into the space of months, is now offered to the public for 17 Cents a Day!

—Offered at the same price as an ordinary typewriter—payable in pennies!

The commanding importance of the Printype is everywhere conceded.

For who does not see what it means to make the world's vast volume of type-written matter as readable as books or magazines? The Printype Oliver Type writer is equipped with Beautiful Book Type, such as is used on the world's leading press.

Printype is distinguished by marvelous clearness and beauty. It does away with all strain on eyesight which the older-old style type imposes. Printype puts life and style and character into the typewritten correspondence. It makes a high letter, every numeral, every character "we plain as print."

The complete story of Printype has never before been told. Here it is:

The Real Story of Printype

The idea from which 'Printype' spring resulted from the success of our type experts in equipping a typewriter used in our offices to write the "The Oliver Typewriter" in our famous trade-mark type just as the name appears on the outside of the machines and in all Oliver publicity.

The beautiful appearance and the mar velous clearness of the reproduction of our "clumpy" trade-mark type, disclosed the possibilities of equipping The Oliver Type writer to write the entire English language in shaded letters.

We worked for years on the plan and finally succeeded in producing, for exclusive use on the Oliver Type writer, the wonderful shaded letters and numerals known to the world as "Printype."

The Public's Verdict

That the public is overwhelmingly in favor of Printype is impressively shown by this fact:

Already over $2 per cent of our entire output of Oliver Typewriters are "Printypes."

The public is demanding Printype in preference to the old style type.

Within a year, at the present rate, $0 per cent of our total sales will be "Printypes."

Thus The Oliver Type writer, which first successfully introduced visible writing, is again to the fore with another revolutionary improvement—Printype, the type that prints print!

To Corporations: The Oliver Type writer issued extensively by great concerns in all sections of the world. Our "17-cents-a-day" Plan is designed to help that large class of typewriter buyers who want the same typewriter that serves the great corporations, but prefer the easy system of purchase.

The masses want The Oliver Type writer because it stands the test of the largest corporations.
