J. F. Carty, Chief Engineer of the American Tel. and Tel. Co. Speaks.

"Help yourself," was the order of things at the Electrical Engineering Society dinner last night in the Union, where Carty, Colle was pre-
ced more exceedingly. The food was set out on tables.

The men went around with their plates and were expected to what they wished: A large pan of food held a prominent place on the centre of the table, and it was a noticeable fact that the cups were frequently brought back to be replenished.

After the supper the names of the officers for 1912-1913 were announced.

They are as follows: President, Robert E. Wood, Jr.; Vice-President, P. F. Weiss; Secretary, C. J. McCarthy; Treasurer, W. A. Ready.

With a short introduction touching upon the engineering life of the evening, the meeting was opened by Mr. Carty, chief engineer of the American Telephone and Telegraph Company.

Mr. Carty started out by saying that the dignity of the engineering staff of the Telephone Company was to be recognized and also appreciated in the line of fire system, including polling, wire and office equipment. In order to do the job properly it is necessary to standardize first the operation of the fire equipment and the use of office equipment.

Affiliated with the American Telephone and Telegraph Company there is the A. T. C. Company, the Western Union and the Western Electric Company.

The Telephone Company operates 4,000,000 stations, 2,158,000 stations directly connected with it, besides 687,000,000 of the A. T. C. Company, 139,000,000 of the Western Electric Company, making a total of 67,000,000 stations. There are 2,747,000 miles of wire in use and 10,146,000 miles of cable. If the lead line of the present measure is adopted, 200,000 area of over 3,000 acres. The plan is to extend by small blocks, enough to fence the entire New Eng- land territory. There are 2,900 miles of conduit underground, 15,000 miles.

ENGLISH PRIZES
Amounting to $2000 Are Offered to College Men.

Another opportunity is offered next year to college students to compete for prizes that amount to $2000. The announcement comes from the University of Chicago through Professor C. F. Adams, chairman of the committee in charge.

The announcement is made early in the year so that students can work on their thesis during the hold-
days, and so not have it in the way when the great open courses in the fall are just in. The subject of the subjects suggested this year is "The Effect of the Industrial Asiatic upon the development of the West," and so forth. The students must be capable of sustaining a paper. Too many ed students ought to be able to sustain a paper, and too many students ought to be able to sustain a paper. They have a good chance to sustain a paper in the more literary schools. The exceptions in-

PROF. JACKSON GIVES ELECTRICAL DINNER

T. C. A. ELECTIONS IN UNION AT FIVE

Clarence W. Brett Renominated For the Presidency Next Year.

This afternoon the polls will be open for the election of the officers of the Technology Christian Association and the officers of the Electrical Engineering Society. The meeting will convene in the two small rooms of the Union at 5 o'clock. Until 5 o'clock all ballots should be left at the指定的 office. After the meeting opens, if there is any further building, the voters will be accepted by the chair-
