CLOSE TIMES EXPECTED IN BROWN MEET TODAY

Tech Has Slight Advantage and Expect to Lead at Finish.

Indications point to one of the closest track meets of the season this afternoon, when Tech meets Brown at the Field. From former performances, the Institute team seems to have a slight advantage, and if L. A. Wilson, '14, is as good as he is reported, Tech will be the fastest in the 100, but Wilkins may nudge him out in the 220-yard.

T. H. Greenleaf, '13, has indicated that he will have the 440 all to himself. The real race will be between C. R. Thomason, '12, C. M. LaFaw, '13, and D. Mahoney and Miles of Brown. W. Dynand, '12, has been doing the 220-yard dash for his team and is expected to be picked up in the heat. The star Brown miler, looks fast enough to win the event, but R. Germann, '12, is going the distance in good time, and may lead him at the tape. Waterman of Brown is faster than any of the Tech men in the two-mile, but he will have to beat Miles of Brown there. E. R. Ferry, '12, and A. F. Nye, '14, are the favorite distance men on the Tech side, and Jack Marcell of Brown next. Marble has the best form of Tech's half-milers, and in the hurdles, with Hutt and Curtiss in the other two events.

Brown will have a big advantage in the weight events, as Tech is weak in that branch this year. Barratt of Brown is expected to win the shot, and in the discus, with a distance of 126 feet, will break the meeting record. Barratt also is expected to give Miles a contest for the weight.

The entries are as follows:

ANNUAL CHEM. DINNER

Week From Tuesday Day Set For Big Entertainment.

The annual big dinner of the Chemical Society will probably be held on the evening of May 14, at the Copley Square Hotel. The committee in charge of the dinner has not completed a program as yet, but promises a novel entertainment. Contrary to the usual custom of providing "shop-talk," the Chemical banquet, members of the Chemical Society this year will be able to forget their cares for a few hours while they enjoy the jokes and songs of a few outsiders who know no chemistry. The committee is certain to get the longest discussion of the season.

A week from today the Tech rifle team will compete for the championship at Waltham. Haslam won the members' medal with a record, and is depended upon to beat the Dartmouth aggregation, and Manager G. B. Brigham, '12, T. C. Fisher, '13, deplore that the Tech team will be out soon, and the voting will have to be deferred.

Brown is expected to win the shot-put, with a high throw of 10 feet, 6 inches which he recorded. Barratt is also well known in the Association for his work in the association activities. W. R. Haslam of Brown will have a big advantage in the 440 and 880-yard dashes.

The ballots for the annual elections will be announced at the dinner. To date there have not been as many nominations for treasurer. The treasurer is the office of the year. From former performances, the Institute team seems to have a slight advantage, and if L. A. Wilson, '14, is as good as he is reported, Tech will be the fastest in the 100, but Wilkins may nudge him out in the 220-yard.

T. H. Greenleaf, '13, has indicated that he will have the 440 all to himself. The real race will be between C. R. Thomason, '12, C. M. LaFaw, '13, and D. Mahoney and Miles of Brown. W. Dynand, '12, has been doing the 220-yard dash for his team and is expected to be picked up in the heat. The star Brown miler, looks fast enough to win the event, but R. Germann, '12, is going the distance in good time, and may lead him at the tape. Waterman of Brown is faster than any of the Tech men in the two-mile, but he will have to beat Miles of Brown there. E. R. Ferry, '12, and A. F. Nye, '14, are the favorite distance men on the Tech side, and Jack Marcell of Brown next. Marble has the best form of Tech's half-milers, and in the hurdles, with Hutt and Curtiss in the other two events.

Brown will have a big advantage in the weight events, as Tech is weak in that branch this year. Barratt of Brown is expected to win the shot, and in the discus, with a distance of 126 feet, will break the meeting record. Barratt also is expected to give Miles a contest for the weight.

ARCHITECTS DINE

Many Prominent Men Will Speak—Combined Societies Meet For First Time.

The annual Architectural banquet which takes place Wednesday night will be quite an innovation from the fact that two societies are combined in giving it instead of the single Architectural Society, which has until this year excelled.

For this reason the speakers have been chosen among men who are prominent in two different professions, namely, architects and civil engineering, and it is hoped by the committee which has the matter in charge that the members from both options will thus be able to receive much valuable help from the talks.

The following list presents an impressive appearance to the men who expect to be present at the dinner: President MacLaurin, Mr. H. Van Buren Magraw, Jr., of New York; Mr. Lloyd Warren, also of New York; Professor Swan of Harvard, and Professor W. H. Lawrence. Mr. Lloyd is well known in architectural circles, President Magraw in the engineering department in Harvard, Professor Swan in the civil engineering department. Lawrence are well known to all Institute men for their interesting after-dinner speaking, and they are splendidly well fitted to tell most interesting facts from his own experience.

The Westminster Hotel has been selected for the banquet, an the committee states that an excellent menu will be served. The tickets are $5.00, and may be secured from any member of the committee.

FRESHMAN BASEBALL

Game With Museum Team Off—1915 Plays Tufts Today.

The Freshman baseball team will meet Tufts Second this afternoon at Cambridge. The game is tentatively scheduled for April 27, was postponed until today by adverse weather conditions. The Freshmen will put up a stronger game as a result of the delay, having developed materially in the last week.

The game between the Freshmen and the Museum of Fine Arts, scheduled for yesterday afternoon at the Museum, was cancelled at the request of the latter team. The yearlings substituted spirited practice for the canceled game and feel confident of favorable results today. The management decides the following men to represent at the Union at 5 o'clock: Hall, Haverford, Barnes, Franklin, McDiarmid, Scott, Monroe, Roy, McCaffrey and McMillan.

THE WEATHER

Forecast for Boston and vicinity: Sun lovely—moderate northeast winds.

CALENDAR

In Charge of W. H. Taylor, 1914.

Saturday, May 4.

230—Track Meet vs. Brown-Tech Track Meet.

220—Tennis vs. Dartmouth-Harvard.

630—Architectural and Architectural Engineering Dinner—Westminster Hotel.
