OLIVER

Typewriter

The Only Writing Machine in the World That Successfully TYPE-WRITES PRINT.

17 Cents a Day!

The Printype Oliver Typewriter which has earned ten years of typewriter preference from the 130 voice establishments in its tests, is now offered to the public for 17 Cents a Day—

Offered at the same price as an ordinary typewriter—parable to praise!

The room-saving utility of the Printype is everywhere acknowledged.

For he does not see what he means to make the world’s most volume of typewriter matter as available on books in general use. The Printype Oliver writer is equipped with Beautiful Face Types such as are used in the world’s prieticest press.

The Printype is distinguished by marvelous clearance and beauty. It dies away with all writing on a vial. It is made in the old-time outline type form. Printype puts life and style and character into typewriter correspondence. It makes every letter, every name, every character “as plain as print.”

The complete story of Printype has never before been told. Here it is—

The Real Story of Printype

The idea from which “Printype” sprang resulted from the success of one type expert in equipping a typewriter used in our office to write the “The Oliver Typewriter” in our own trade.

To Corporations: The Oliver Typewriter is used extensively by great concerns in all sections of the world. Our “17-Cents-a-Day” Plan is designed to help that large class of typewriter buyers who want the same typewriter that serves the great establishments; but prefer the easy system of purchase.

The man who buys The Oliver Typewriter because it stands the test of the largest corporations.
