INNOVATIONS MADE IN TRACK PRACTICE

Athletic Meets Will Be Held Every Saturday Afternoon Till October 19.

Daily track practice begins this week at the Field and many innovations will be made. For the next three weeks meets, under the direction of Captain German, will be held between the candidates every Saturday afternoon, from which all regular team members will be barred. This is a plan that is bound to become popular and excite further interest, and it has already been tried successfully at Yale and Dartmouth. The meet will act as officials in their respective events, and so be able to assist in the development of the team later on. Each new man will receive careful individual coaching from these experienced runners.

The first meet will be scratch for everybody, in order to get an idea of the material present. The second and third will be handicaps, in which the first three men in each event of the former meet will be handicapped in a systematic way. By this means the captain and coach expect to obtain better competition from the lower classes and to draw a larger number of entries than heretofore.

All the field events will be held in these meets, and in the track events the 100, 200, 440 and perhaps the half-mile, will be run off.

The points will be scored 5, 4, 3, 2, 1. The individual scores will be added up at the close of the third meet, and to the highest point winner in each event will be given a suitably priced, either a cup or a medal.

Another innovation made by Captain German will be the photographing of the athletes and their horses from time to time during the practices and the weekly meets. These pictures will be posted for the benefit of the students on the different bulletin boards in the corridors.

TECH EPISCOPALIANS.

All Are Invited to Attend First Reception at Trinity House.

Under the auspices of the Brotherhood of St. Andrew a reception will be held this evening at Trinity House, 23 St. James avenue, to all Tech Episcopalians, especially those in the Freshman class.

Dr. Mann, the rector of Trinity Church, will be present to welcome the seniors to Trinity Church, and a cordial invitation is extended to all Episcopalians to attend. There will be several men there to greet the new men entering Tech, and an informal good time will be enjoyed by all.

To-night at 8 o'clock, at Trinity House, the house with the flag-pole, All will be welcome.

T. C. A. RECEPTION (Continued From Page 1.)

It is to be held Tuesday evening in the Park Street Church, not the regular annual reception that is given by the Technology Christian Association. The latter will take place on Friday evening, at 8 P. M., in the Union.

The purpose of the reception is to give the incoming student a conception of the work and students' activities here in the Institute. All meetings have always been useful because of the amount of information that is usually given and which is indispensable to the new student. The president of the singing society, the men who have graduated last year, and the men who have graduated this year, will give an outline of the work and activities here in the Institute.

This will be an early issue of THE TECH.

However, the reception in the Park Street Church will be held as usual.
