CIRCULATION OF THE TECH GROWING FAST

Number of Subscriptions This Year Exceeds Previous Records.

The circulation of THE TECH is growing rapidly and seems to greatly exceed the record set in previous years. This is due mainly to the activity of the Business Department and a number of innovations that are helping much to help the circulation grow.

The number of subscriptions sold this year is far in excess of that sold last year, and they are still going fast. Old subscribers are renewing their subscriptions, and every mail finds large numbers of unshipped checks.

An extension of the delivery system has been very well received, and many students have expressed satisfaction with the service.

FINANCE COMMITTEE BEGINS YEAR'S WORK

Much Important Business Comes Before First Meeting of Term.

The first and perhaps the most important meeting of the Finance Committee was held last night in the Union. Fifteen men sat down to a business meeting that had been called to order by President Hilton. Dean Burton addressed the class. He said that he always wanted the Sophomore class to vote Field Day, because he knew that if a class had enough spirit to hang to go for two years in a treaty that they could accomplish something.

He then spoke of the extension adopted by the Class of 1914 to build the Stadium. The plan was moved and lost that the dues of the Sophomore class be reduced. Hilton announced that a nominating committee would be appointed and that nominations are due at the Cage before Friday morning, so that every man may vote.

PROGRESSIVE PARTY

Inauguration of Club to Take Place Today in Union.

At 1:30 o'clock today in the Union the Progressive movement in the Institute will be inaugurated by an open meeting, to which all are invited. The members of the day will be one of the fewest members of the Progressive Party in the state and a candidate for the office of Secretary of State for this Commonwealth. That man is Mr. Russell A. Wood, a resident of Massachusetts and the President of the Boston's Progressives.

The spirit of Progressiveness throughout our country has evidenced itself in our state. The interest in the movement is similar to the interest in the state. The Institute is favorable to the ideas of the new party and some of the members of the Progressive Party are in the Union.

The student body is expected to turn out to welcome the new candidate.

1914 NOMINATIONS

Nominations for officers of the Juniors are due Monday, October 14th. The Juniors may be held at the Cage for 1914 Hall, or may be given by any member of the class.

1914--CLASS MEETING--HUNTINGTON HALL I. P. M.

ANNUAL FRESHMAN DINNER PROGRESSING

Affair to Be Held in the Union Dining Room Saturday Evening.

The annual dinner given by THE TECH to the freshmen begins properly at 5:30 on Saturday evening, and is given in the Union. It is not only a pleasure but a duty of every Freshman at the Institute to attend this first class gathering of their Technology life. They will have a fine opportunity to meet the men who are doing things here and get an inside knowledge of some of the activities, as well as meet their own classmates and learn to know them.

The tickets are now on sale, and those expecting to go should purchase them before further discussion. So arrangements may be made with the Student for the right number. All who attend will have an opportunity to get acquainted with the Dean, the President, the Executive Committee, and the President of the Junior Class.

SHOE TREASURER

Stranger Walsh, of Tech Shop, will be in his office in Room 11, in the Union, Friday afternoon, at 4:10, to meet all candidates for the position of treasurer. This position is a new one at Tech. The duties consist of being the principal bookkeeper of the Business Manager's Office. Walsh is also to act as the Business Manager, and to use the money for the position which offers the only chance a man has a chance to get the position. He will handle the business of selling tickets, keep accounts and take complete charge of the operation. The position is one of great importance being a member of the Junior Class and a very large amount of work involved, and men who have had some business experience in the line are preferred.

A Freshman is known from the umbrella he carries.
